

Product Registration and Service

You must register your product to obtain Warranty Service. Complete the registration form at hornady.com/warranties.

Scan to register your product to receive the full benefit of its warranty.

To Receive Warranty Service

To report a warranty claim, call Hornady® at 800-338-3220 to request a return authorization number. Returns will not be accepted without prior return authorization by Hornady®. When a return authorization number has been obtained, be sure all contents have been removed from the RAPID® Safe before sending it for service. Hornady® is not liable for any loss, theft, or damage to personal property.

Post-Warranty Service Information

For issues concerning service after the Limited Warranty expires, contact Hornady® at 800-338-3220.

Product Serial Number and Key Number Reference

You must register your RAPID® Safe in order to obtain warranty service. In the event you should need service for your product, please note the following information:

Serial Number _____
(see the back or bottom of safe)

Key Number _____
(see the face of the lock)

After recording the information, store user manual and spare keys in a secure location outside the safe.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
