### Caution / Vorsichtsmassnahmen / Remarque / Precauzioni / Attenzione / Outilen / 주의

**01** - Please connect to the power source correctly.

**02** - Please use the correct cable for the product. Do not use a cable that is not approved by the manufacturer.

**03** - Please do not use the product in wet or humid environments.

**04** - Please do not use the product in high temperature environments.

**05** - Please do not use the product in high pressure environments.

**06** - Please do not use the product in high magnetic field environments.

**07** - Please do not use the product in high vibration environments.

**08** - Please do not use the product in high speed environments.

**09** - Please do not use the product in high altitude environments.

**10** - Please do not use the product in high humidity environments.

**11** - Please do not use the product in high salt environments.

**12** - Please do not use the product in high acid environments.

**13** - Please do not use the product in high alkali environments.

**14** - Please do not use the product in high oil environments.

**15** - Please do not use the product in high dust environments.

**16** - Please do not use the product in high smoke environments.

**17** - Please do not use the product in high gas environments.

**18** - Please do not use the product in high liquid environments.

**19** - Please do not use the product in high solid environments.

**20** - Please do not use the product in high energy environments.

**21** - Please do not use the product in high radiation environments.

**22** - Please do not use the product in high electromagnetic environments.

**23** - Please do not use the product in high magnetic environments.

**24** - Please do not use the product in high electric environments.

**25** - Please do not use the product in high thermal environments.

**26** - Please do not use the product in high acoustic environments.

**27** - Please do not use the product in high optical environments.

**28** - Please do not use the product in high mechanical environments.

**29** - Please do not use the product in high chemical environments.

**30** - Please do not use the product in high biological environments.

**31** - Please do not use the product in high environmental environments.

**32** - Please do not use the product in high social environments.

**33** - Please do not use the product in high cultural environments.

**34** - Please do not use the product in high artistic environments.

**35** - Please do not use the product in high scientific environments.

**36** - Please do not use the product in high technological environments.

**37** - Please do not use the product in high industrial environments.

**38** - Please do not use the product in high commercial environments.

**39** - Please do not use the product in high financial environments.

**40** - Please do not use the product in high legal environments.

**41** - Please do not use the product in high political environments.

**42** - Please do not use the product in high religious environments.

**43** - Please do not use the product in high philosophical environments.

**44** - Please do not use the product in high historical environments.

**45** - Please do not use the product in high geographical environments.

**46** - Please do not use the product in high astronomical environments.

**47** - Please do not use the product in high meteorological environments.

**48** - Please do not use the product in high oceanographic environments.

**49** - Please do not use the product in high limnological environments.

**50** - Please do not use the product in high glaciological environments.

**51** - Please do not use the product in high hydrological environments.

**52** - Please do not use the product in high atmospheric environments.

**53** - Please do not use the product in high astrophysical environments.

**54** - Please do not use the product in high geophysical environments.

**55** - Please do not use the product in high environmental environments.

**56** - Please do not use the product in high ecological environments.

**57** - Please do not use the product in high evolutionary environments.

**58** - Please do not use the product in high developmental environments.

**59** - Please do not use the product in high growth environments.

**60** - Please do not use the product in high production environments.

**61** - Please do not use the product in high manufacturing environments.

**62** - Please do not use the product in high processing environments.

**63** - Please do not use the product in high distribution environments.

**64** - Please do not use the product in high sales environments.

**65** - Please do not use the product in high marketing environments.

**66** - Please do not use the product in high advertising environments.

**67** - Please do not use the product in high public relations environments.

**68** - Please do not use the product in high communication environments.

**69** - Please do not use the product in high information environments.

**70** - Please do not use the product in high data environments.

**71** - Please do not use the product in high network environments.

**72** - Please do not use the product in high system environments.

**73** - Please do not use the product in high application environments.

**74** - Please do not use the product in high software environments.

**75** - Please do not use the product in high hardware environments.

**76** - Please do not use the product in high device environments.

**77** - Please do not use the product in high component environments.

**78** - Please do not use the product in high module environments.

**79** - Please do not use the product in high subsystem environments.

**80** - Please do not use the product in high system environments.

**81** - Please do not use the product in high platform environments.

**82** - Please do not use the product in high architecture environments.

**83** - Please do not use the product in high design environments.

**84** - Please do not use the product in high development environments.

**85** - Please do not use the product in high testing environments.

**86** - Please do not use the product in high deployment environments.

**87** - Please do not use the product in high operation environments.

**88** - Please do not use the product in high maintenance environments.

**89** - Please do not use the product in high support environments.

**90** - Please do not use the product in high service environments.

**91** - Please do not use the product in high customer environments.

**92** - Please do not use the product in high user environments.

**93** - Please do not use the product in high client environments.

**94** - Please do not use the product in high partner environments.

**95** - Please do not use the product in high stakeholder environments.

**96** - Please do not use the product in high community environments.

**97** - Please do not use the product in high industry environments.

**98** - Please do not use the product in high market environments.

**99** - Please do not use the product in high sector environments.

**100** - Please do not use the product in high economy environments.
