Subject: of Tabs Beacon Type 9 Duty Cycle Attestation

FCC Number: 2AFMS-B59B

To whom it may concern

We, MiX Telematics Ltd, hereby attest that the Tabs Beacon Type 9 has the following operational mode duty cycles hardcoded into firmware:

Normal tracking – 12ms every 10mins (this is the mode that the device will spend >99% of its time).

Firmware Update – 12ms every 78ms (estimated use is only once in the device's life time).

Maximum length of OTA firmware update is 5 minutes and there would be 3846 cycles in this time period.

Yours faithfully,

S. R. Dawes, Engineering Manager
