# ACCESS TELECOM

## WiFi Channel 12 and 13 Declaration Letter

We declare the equipment identified below with regards to Channel 12 and 13 capabilities for  
FCC ID: 2AFMZ-RK-175

| Declaration                         |   |
|-------------------------------------|---|
| <input type="checkbox"/>            | Product hardware <u>does not</u> have the capability to operate on Channel 12 and 13.   |
| <input checked="" type="checkbox"/> | Product hardware has the capability to operate on Channel 12 and 13. However, these two channels will be disabled via software and will not be accessible to user.  |
| <input type="checkbox"/>            | Product hardware has the capability to operate on WiFi Channel 12 and 13, and meets the requirements of KDB 594280 D01 v02r01. Please note:<br>1.) By default, this device operates in a mode that is compliant with the U.S. requirements.<br>2.) This device will also use supplemental information such as geo-location data to determine that it is operating outside the U.S., if necessary, to change its power. Such supplemental data will be derived from the following: |
|                                     | <input type="checkbox"/> Global Navigation Satellite System (GNSS) <sup>7</sup> sensors in the device   |
|                                     | <input type="checkbox"/> Mobile Country Code (MCC), <sup>8</sup> or MCC with a Mobile Network code (MNC), received from a CMRS <sup>9</sup> carrier and received directly by a receiver on the device   |
|                                     | <input type="checkbox"/> Country information derived from multiple adjacent access points (for example using IEEE Std 802.11d provisions) may be permitted on case-by-case basis  |
|                                     | <input type="checkbox"/> Other suitable geo-location data based on IP addresses or other reliable source.   |
