Cooling Magnetic Wireless Charger User Manual

Thanks for choosing us!

This is a smart phone Cooling Magnetic Wireless Charger that allows you enjoy the fun of digital products easily.
Please kindly read the user manual before using and keep it for future reference.

Specification

Input: DC5V 3A, DC9V 3A, DC12V 2.5A Charging distance: ≤10mm
Output: 5W/7.5W/10W/15W Conversion: ≥72%
Frequency: 115-205KHz NW.: 77.5g
Dimension: Φ61×25mm

Connect to Power Adapter

- ① Connect the power adapter to socket.
- ② Connect adapter to the Type-C interface, the other Type-C to Cooling Magnetic Wireless Charger.

For charging the mobile phone

- ① Make sure the wireless charger dock connect to the power supply.
- ② Take this product with positive magnetic suction wireless charging function of mobile phone joint can be charged.
- ③ This product built-in fan cooling, can reduce the product surface and the mobile phone shell temperature, improve the charging efficiency.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
FCC RF exposure statement:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
FCC ID: 2AFP2LC44C
