Bluetooth connection way

Charge the phone wirelessly

Bluetooth call

Rotate 35°

Notes

- Do not allow children to use this product.
- Do not use this product in the following situations:
• In the presence of flammable or explosive materials.
• In the presence of high voltage or high temperature.
• In the presence of strong magnetic fields.
• In the presence of strong electromagnetic waves.
• In the presence of strong radio frequency signals.
• In the presence of strong infrared radiation.
• In the presence of strong ultraviolet radiation.
• In the presence of strong ionizing radiation.
• In the presence of strong electromagnetic interference.
- Do not use this product in the following situations:
• In the presence of flammable or explosive materials.
• In the presence of high voltage or high temperature.
• In the presence of strong magnetic fields.
• In the presence of strong electromagnetic waves.
• In the presence of strong radio frequency signals.
• In the presence of strong infrared radiation.
• In the presence of strong ultraviolet radiation.
• In the presence of strong ionizing radiation.
• In the presence of strong electromagnetic interference.

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment to a different outlet or a different branch that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
FCC ID: A54000-TB20
The equipment complies with FCC Radiation exposure limit set forth in the user manual. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
