Re: FCC ID: 2AFR8-LB1SJ

To Whom It May Concern:

The following application is submitted on behalf of our client, Invue, for evaluation of their model LBAA0QB1SJ for a C2PC certification under FCC Part 15.247.

C2PC is to add a new antenna/host combination to the modular filing. Additionally only the hybrid DSS mode of the device will be active when the LBAA0QB1SJ is integrated into the OPSNSR host. The DTS mode will be turned off via software.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
