Page 4

Pairing & Connecting

A:Bluetooth Mode

Make sure your AOMAIS Go battery is full charge. Your source device needs to be within 33 unobstructed feet the AOMAIS Go
If the blue led light is fast flashing after turn on, indicator the AOMAIS Go is ready to pair and connect, also with the voice prompts "Ready to Pair".
If the blue light is slowly flashing and voice prompts "Paired"the .AOMAIS Go has automatically reconnected to the last source device the speaker was conncteted to and is ready to play.

Note: AOMAIS Go will automatically try to connect to the last source device it was conncteted to each time it is turned on and that source device is within range.

AOMAIS Go can be connected to one device at a time.
To pair or connect to different source device, you need to disconnect the currently paired device. To disconnect it, press and hold the Play/Pause button. The blue light will begin flashing and will announce "Ready to pair".

B:Audio Cable Mode

You can playing your Apple Mac, Laptop, Computer and non-Bluetooth devices with the 3.5mm audio cable. Like some older Windows computers and operating systems may have difficulty pairing and connect over Bluetooth. If this occurs it is recommended to connect using 3.5mm audio cable.

Note: The Bluetooth on the AOMAIS Go is disabled when the 3.5mm audio cable is connected to the speaker
Please remember to close the USB and Aux port cover when not using 3.5mm audio cable. The cover need to be closed to keep spaker waterproof.

Page 6

IPX7 Waterproof

- No more worries about the rain or water.
- Listen to music in the shower or the hot tub.
- Perfect for taking to the adventure, beach or the pool.
- IPX7 Waterproof - Immersion up to 1 m for 30 minutes underwater, but not recommend to fully submerged, which will lead to no sound under the water due to signal cut off

Note:

Please remember to close the USB and Aux port cover before you use the speaker in the water. The cover need to be closed to keep speaker waterproof, otherwise will cause the speaker damaged.

Gentle Water Spray or Splash is okay

It can submerge into water fully and after you pick up, you can continue to listen your music.

Page 7

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the

equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

AOMAIS Go Stereo Pairing Guide

Bring two AOMAIS Go speakers within 1m(3ft) from each other. Turn on both speakers. Flashing blue light indicates that speaker is ready to be paired.

Press and hold two volume buttons of one speaker until you hear a beep. Then you will hear "paired", which means the connection between the speakers is established.

Start playing music on your device and adjust volume to a desirable level, both speakers have the same function after being paired, you can control both speakers through one of them.

If you want to disconnect the two speakers, press and hold two volume buttons on one speaker until you hear a beep, afterwards you will hear "ready to pair". The two speakers are now disconnected and can be used as single unit.

Troubleshooting & Customer Support

For assistance with the questions or any issue with your AOMAIS Go that is not answered in the troubleshooting tips below, please contact us by visiting: aomais.com/contact and sent the mail to our customer service

Can not turn on
The battery may have become fully drained. Charge the AOMAIS Go use wall charger from a Smartphone/iPhone, then press the power button to turn the speaker on. Then continue charging the battery
Reset the AOMAIS Go

Can not pair or connect to Bluetooth
Check the Bluetooth led light (Blue) to make sure it is quick flashing. If it is slowly flashing blue light the AOMAIS Go is already connected to another source device.
The speaker can be paired with only one device at a time. Meaning if you would like to pair the speaker with a second different device, you must cut off the pairing between device and the speaker. Please see the instructions on page5
Check that your AOMAIS Go has a sufficient battery charge, the speaker may not connect when the battery has a low charge. Connect the speaker to a charging source and try again pair and connect
Your device may be out of range. Move it closer to within 33 unobstructed feet of your speaker
Some older windows computers and operating systems may have difficulty pairing and conncting over Bluetooth. If this occurs it is recommended to connect using the 3.5mm audio cable.

No audio playing from the speaker when conncteted over Bluetooth
Remove the AOMAIS Go from the Bluetooth device list on you source device, and then re-pair and connctet to the speaker.
