

9"

BLUETOOTH SUCTION SHOWER SPEAKER WITH BUILT-IN MIC

Packing List

1x Shower Speaker, 1x User Manual, 1x USB Charging Cable

INSTRUCTIONS

Press the power button for five seconds to turn the speaker on. A blue LED and sound indicate that the device is now turned on.

1. Bluetooth Connection

a. Speaker will automatically pair with the last device. A quick blue LED flash indicates the speaker is pairing mode. (The pairing time will be different depending on the device)

b. Turn on the Bluetooth in your smartphone settings, search for "BT speaker" and choose to pair with it. The blue LED will flash slowly once pairing is successful.

c. Play music wirelessly once pairing is successful.

d. Answering and ending a call works the same way: simply click the play/pause button on your speaker unit. Some smartphones automatically use Bluetooth when answering calls.

2. Volume Control

Press and hold the "|<<" or ">>|" buttons to adjust the volume.

3. Song Selection

Tap the "|<<" or ">>|" buttons to skip to the previous or next track.

4. Answering the Phone

Press the ☎ to answer an incoming phone call. The built-in microphone allows for hands-free operation. Press the ☎ to hang up the phone.

5. Connecting to a computer or tablet

Please ensure you have Bluetooth capability on your device then pair the Bluetooth using the same steps above.

6. Charging the Speaker

Charge the device by Micro USB cord or any USB AC adapter. The red LED indicates the device is charging, LED light will turn off when fully charged. LED indicator will flash red when speaker has low battery. The charging time is about two hours.

7. Instructions for LED indicator

Blue LED flashing quickly indicates pairing mode.
Blue LED flashing slowly indicates successful pairing.
Solid red LED indicates the device is charging.
Flashing red LED indicates low battery.
Red LED turns off when fully charged.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
