This mobile phone offers the following frequency bands in EU areas only and maximum radio-frequency power: GSM 900: 35 dBm	FCC Note	Manufacturer, Xiaomi Communications Co., Ltd.	
PT RO SK SI ES SE UK Receiver Category 2 Ensure the power adapter used meets the requirements of Clause 2.5 in IEC60950-IzN60950-I and has been tested and approved according to national or local standards. Frequency Bands and Power	This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RP) energy. The exposure standard for wireless devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC Is 1.6W/Kg. For body-worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and positions the device a minimum of 1.0 cm from the body. RF exposure compliance with any body-worn accessory that contains metal was not tested and certified, and use of such body-worn accessory should be avoided. Accessory available in market and must be used to keep use distance 1.0 cm from EUT to Body-own operation.		
AT BE BG HR CY CZ DK EE FI FR DE EL HU IE IT LV LT LU MT NL PL	 Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. RF Exposure Information (SAR)	without notice. Such changes will, however, be incorporated into new editions of this User Guide. All illustrations are for illustration purposes only and may not accurately depict the actual device.	
and certified, and use such body-worn accessory should be avoided. EU Certification Information (Highest SAR) SAR 10 g limit: 2.0 W/Kg, SAR Value: Head: X.XXX W/Kg, Body: X.XXX W/Kg (5 mm distance). Legal Information This device may be operated in all member states of the EU. Observe national and local regulations where the device is used.	and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna.	Disclaimer This User Guide is published by Xiaomi or its local affiliated company. Improvements and changes to this User Guide necessitated by typographical errors, inaccuracies of current information, or improvements to programs and/or equipment, may be made by Xiaomi at any time and	
SAR compliance for body operation is based on a separation distance of 5 mm between the unit and the human body. Carry this device at least 5 mm away from your body to ensure RF exposure level compliant or lower to the reported level. To support body operation, choose the belt clips or holsters, which do not contain metallic components, to maintain a separation of 5 mm between this device and your body. RF exposure compliance with any body accessory, which contains metal, was not tested	subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This mobile phone has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy	To access it, please select Settings > About Phone > Certification or select Settings, then type 'Certification' into the search bar. Model: M1908C3JG 1908 indicates that this product will be launched after 201908.	by Xiaomi

Correctly dispose of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle responsibly to promote the usualitable reus of material resources. To safely recycle your device, please use return and collection systems or contact

the retailer where the device was originally purchased. For Environment Declaration, please refer to the link below: http://www.mi.com/en/about/environment/

CAUTION RISK OF EXPLOSIO

To prevent possible hearing damage do not listen at high volume for long periods.

Important safety information

Read all the safety information below before using your device. Using unauthorized cables, power adapters, or batteries can cause fire, explosion, or pose other risks. Use only authorized accessories which are compatible with your device. This device's operating temperature range is 0°C-40°C. Using this device in the environments outide of this temperature range may damage the device. If your device is provided with a built-in battery, don't attempt to replace the battery yourself to avoid damaging the battery or the device. Charge this device only with the included or authorized cable and power adapter. Using other adapters may cause fire, electric shock, and damage the device and the Adter charging is complete, disconnect the adapter from both the device and the power outlet. Do not charge the device longer than 12 hours. The battery must be recycled or disposed of sparately from household waste. On not disassemble, hit, crush, or burn the battery. In case of deformation, stop using the battery mad cacessories according to the local regulations. On on tobassemble, hit, crush, or burn the battery. In case of deformation, stop using the battery mad cases projecion. - Do not host circuit the battery to avoid overheating, burns, or other personal injuries. - On ont place the battery in the high-temperature environments. - Overheating may cause seriposion. - Do not burn the battery to avoid fire or explosion. - Do not burn the battery to avoid fire or explosion. - Do not burn the battery to avoid fire or explosion. - Do not burn the battery to avoid fire or explosion. - Do not burn the battery to avoid fire or explosion. - Do not burn the battery to avoid fire or explosion. - Do not burn the atter bit device wurself. If any and of the device doy.
