To whom it may concern,

Re: Post-market Surveillance for FCC ID 2AG4NWB10PE

I am writing in response to your notification of non-compliance related the above FCC ID. This is to confirm that no units of this device have ever been sold in the market and there are none in the market. The unit was considered too expensive to be commercially viable, and another product providing the same functionality was marketed instead.

I am therefore requesting that the FCC ID be dismissed.

Please do not hesitate to contact me should there be any issues.

Yours Truly,

A handwritten signature in black ink, appearing to read "Dennis Kwan".
