INSIDE

| PAIRING BOTH EARBUDS | 1 Turn on both earbuds Take both earbuds out of the case. The earbuds will turn on and pair to each other automatically. | 2 Pair the earbuds with your device Turn on Bluetooth on your device and choose "SOUNDPODS" from your list to connect. When the LED status bar turns blue, they are paired successfully. There will be a reminding voice saying "connected". | Bluetooth usage: 1. Making phone calls: To use the earbuds are connected with your mobile phone. Once connected you can make phone calls. When using call, both earbuds will be working for hearing both parties. To answer a call, short press the power button once. To reject calls, long press the power button once. The earbuds are also available for a voice answer to the power button twice when the earbuds are in power mode. 2. Listening to music: Be sure the earbuds are connected with your mobile phone. You can listen to music on your mobile phone. Short press the power button to stop the music to reply phone again. 3. Power off: Long press the Power button until the LED red light is no longer red, then the Bluetooth device is turned off. The earbuds turn off automatically when earbud is away from Bluetooth device for a duration of over 5 minutes. | 4. Low battery When battery is low, there will be a reminding voice saying "Battery Low". The earbuds will automatically power off when taken out from the charging case. Both earbuds will automatically pair to each other when turned on. The earbuds will power off if they don't connect to any device within 5 minutes. If the earbuds turn off, turn the earbuds on again by: a) putting the earbuds back into the charging case and then take it out to power on. b) manually turn it on by long pressing the multi-function button on the earbuds. |
