

**Bluetooth Stereo Headset
User Manual**

TURNING ON:

1. Press and hold the multifunction button for about 3 seconds, the voice prompt will prompt power on, then the blue light will flash.

PAIRING:

1. Place your wireless earbuds within 3 ft of your phone or other device when pairing.
2. Press and hold the multifunction button for 5 seconds to begin the pairing process. The red & blue light will flash, that indicates earbuds are in pair status.
3. Activate the Bluetooth feature on your phone or other device to search for the earbuds, "F&M Trx" should appear on your device menu. Select "F&M Trx" on the device to connect. If your device asks for a password, please enter 0000 on your device.
4. You will hear a confirmation tone. Once paired with the device, and the blue indicator light will flash twice every 5 seconds, you are now connected by Bluetooth.

AUTOMATIC RECONNECT

When the headset and the mobile phone have been paired, the headset will automatically connect with the mobile phone (ensure the mobile phone's Bluetooth function is on, and the distance between your headset and phone is within effective distance).

CHARGING:

The wireless F&M Trx Earbuds come with a built-in rechargeable Lithium battery. Charge the battery full before using the F&M Trx for the first time.

Open the cover of USB jack and plug the charging cable in the USB port. The red indicator light remains on when charging. Full charge takes around 1 hours. The red indicator light goes out and the blue indicator light remains on afterwards when full charged.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
