Notice and Warranty >

Factory Reset >

To perform a factory reset to Lettin

- Turn on your Lettin for 3 seconds, then immediately turn off for another 3 seconds.
- Repeat the above operations for 6 times, Lettin will flash in different color to indicate that the reset was successful.

Notice

- Lettin product is not compatible with dimmers from other brands.
- Products are not rated for damp environments such as bathrooms or covered outdoor areas.
- Modifying or dis-assembling products will effectively void the warranty of the products.
- Bulb surface temperature may increase after long period of use. Please avoid direct contact before the device cools down.

Warranty

Two-year warranty is provided to the light source products, one-year to the accessories. The warranty is available when the customer presents credentials such as: receipts, electronic receipts, invoices, or transaction numbers.

- The following conditions do not apply to warranty:**
- Warranty period has ended.
 - Unauthorized maintenance, misuse, collision, negligence, water damage, improper installation, and altered labeling.
 - Improper or altered product packaging, accessories, and missing purchase documentation.
 - Environmental factors such as lighting, flood, fire, or other factors.
 - Due to a force majeure.

Cleaning & Maintenance

- When connected to power, do not attempt to clean the light bulb or lighting fixture. Ensure power is off for the fixture and light bulb, and use a soft dry cloth to clean the surfaces. Do not use any chemical or cleaning

Disposal & Recycling

- This product has been designed to be recyclable, from the outer assembly to the circuit boards. Do not place product into garbage disposal. Place product in the correct recycling receptacle.

FCC Warning

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

FCC Caution:

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
- (1) This device may not cause harmful interference
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device and its antenna(s) must not be collocated or operating in conjunction with any other antenna or transmitter.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

ISED Warning:

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause interference, and

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Innovation Science et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with ISEDC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. Cet équipement est conforme aux limites d'exposition aux rayonnements ISEDC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20cm de distance entre la source de rayonnement et votre corps.

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
