## Attestation

We, [Plume Design, Inc.](#), attest that this device under FCC ID [2AG7G-M1A](#) complies with device protocol requirements and operational restrictions: for indoor access point [6ID](#).

### Indoor Access Point 6ID:

#### 1. Protocol attestation statement:

- a. Statement for modules only: Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent.
- b. Statement describing the method the indoor access point uses to control the associated client/subordinate power control.

#### 2. Statement acknowledging device restrictions:

- a. Low-power indoor Access Point. Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet only in the 5.925- 6.425 GHz band.
- c. Indoor access points are prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely yours,

---
