

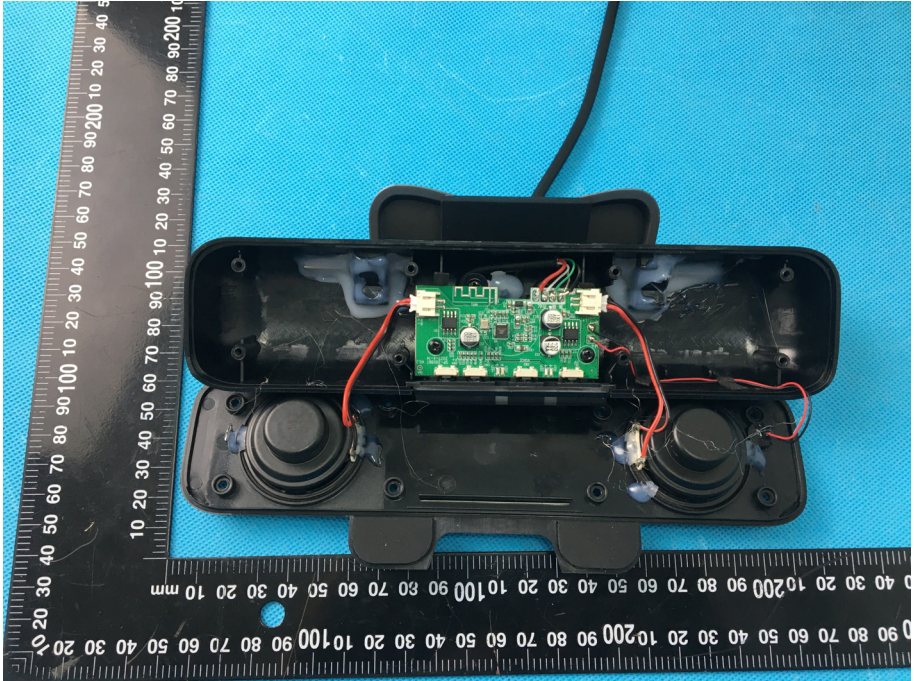

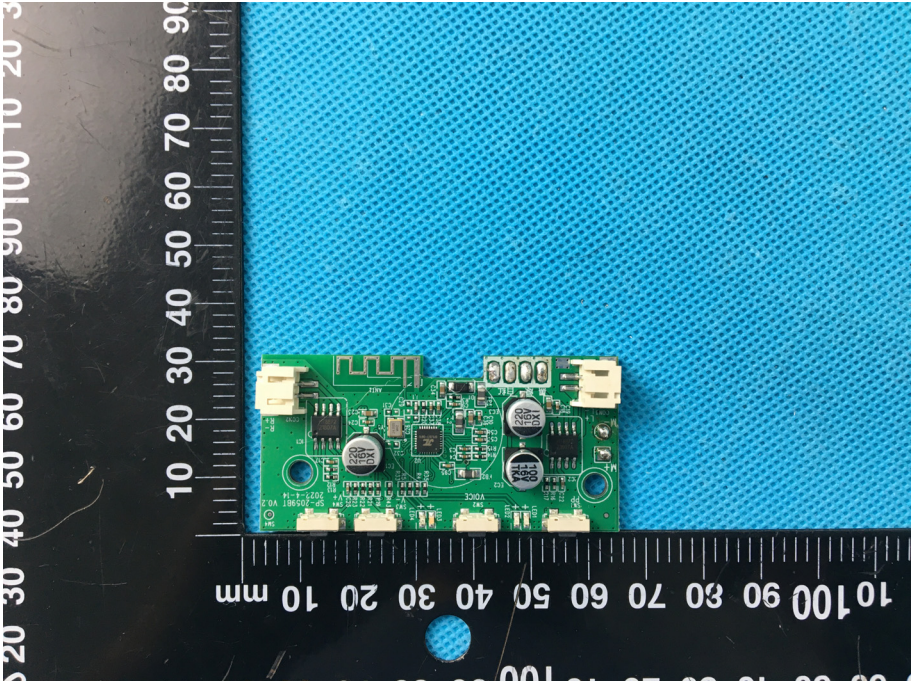

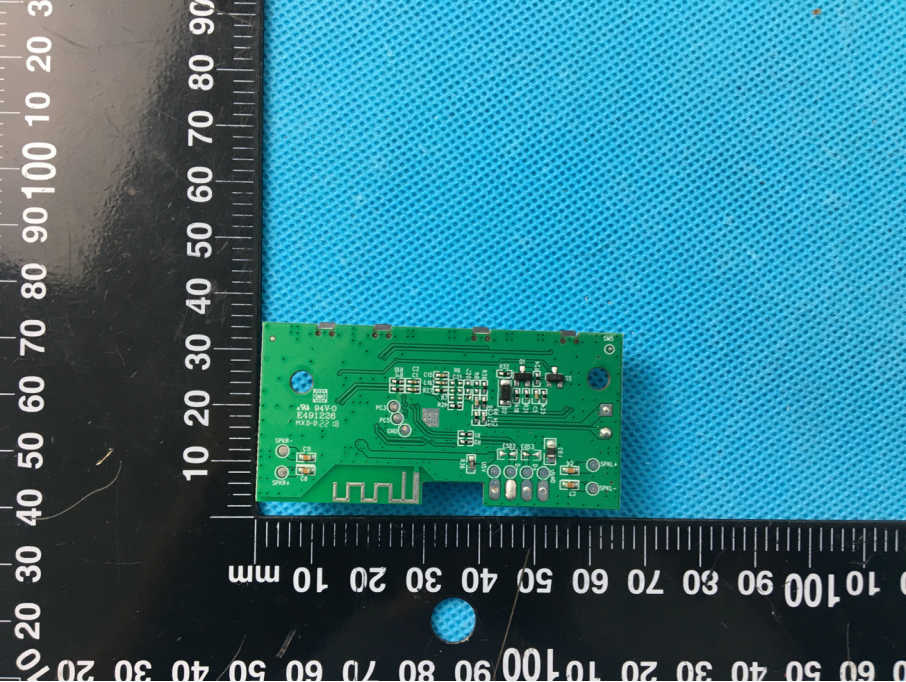

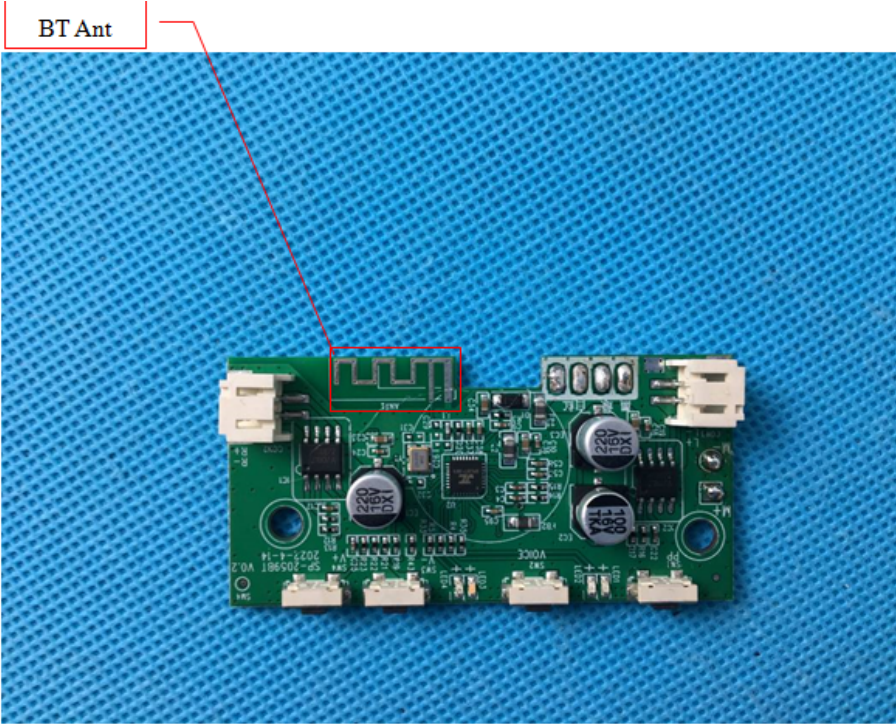

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of a black plastic housing. A green printed circuit board (PCB) is mounted in the center, connected to two circular speakers on either side by red wires. A black cable is attached to the top of the board. The entire assembly is placed on a blue textured surface next to a black ruler with white markings for scale.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the green PCB components. The board features several integrated circuits, capacitors, and connectors. It is positioned on a blue textured surface next to a black ruler with white markings for scale.

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) component, likely a Bluetooth module, placed on a blue textured surface. The component is positioned between two rulers. The ruler on the left is vertical and shows markings from 0 to 100 mm. The ruler at the bottom is horizontal and also shows markings from 0 to 100 mm. The PCB has various components, including a central chip, several capacitors, and a small antenna structure on the left side.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph of the same green PCB component, viewed from a different angle. A red box highlights the antenna structure, which is a small, rectangular, meandered metal trace. A red line points from the text "BT Ant" in a white box above the antenna to the highlighted area. The component is placed on a blue textured surface.</p>
