

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a small, rectangular green printed circuit board (PCB) component. The component is positioned horizontally on a blue textured surface. A black L-shaped ruler is placed next to it for scale, with the vertical ruler on the left and the horizontal ruler at the bottom. The component is located between the 10 mm and 20 mm marks on the horizontal ruler and between the 10 mm and 20 mm marks on the vertical ruler. The component has several small, dark, rectangular components (likely capacitors or resistors) and a small, circular component (likely a microchip) mounted on it.
Solder Board-Component View 3	 A photograph of a larger, rectangular green printed circuit board (PCB) component. The component is positioned horizontally on a blue textured surface. A black L-shaped ruler is placed next to it for scale, with the vertical ruler on the left and the horizontal ruler at the bottom. The component is located between the 10 mm and 20 mm marks on the horizontal ruler and between the 10 mm and 20 mm marks on the vertical ruler. The component has several small, dark, rectangular components (likely capacitors or resistors) and a small, circular component (likely a microchip) mounted on it.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, identified as 'Solder Board-Component View 4'. The component is rectangular and populated with various electronic components, including integrated circuits, resistors, and capacitors. It is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	 A photograph of the same green PCB component, identified as 'Antenna View'. A red rectangular box highlights a specific area on the board, which is a Bluetooth antenna. A red line extends from this box to a label 'BT Ant.' located below the image. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). BT Ant.
