Mobvoi  
Model CXH-A

## What's in the box

## Main user interfaces

### Earbud

1. Touch Control Panel
2. Pressure-Relief Hole
3. LED Indicator & Secondary Microphone
4. Microphone

### Charging Case

1. Charging case LED Indicator (White only)
2. Charging case LED Indicator (Green only)
3. USB Type-C Charging Port

## Instructions Before Using

When using Mobvoi Earbuds ANC for the first time, check the LED indicator for the battery status.

### Charging case LED indicator

Action	LED indicator	Status
Opening the charging case / Placing earbuds back into the charging case	The white / green LED on	Ready for use
	Flashing white / green light	Please charge the case
	LED off	

### Earbuds LED indicator

LED indicator	Status
LED off	No battery / ANC-Off Mode
Flashing red light	Low battery (Less than 30%)
Rapidly-flashing blue light	Ready to pair

LED indicator	Status
Flashing blue light every 5 seconds	Earbud is working
Green LED on for 30 seconds	Quiet Mode
Red LED on for 30 seconds	Sound-Passthrough Mode

## Bluetooth Pairing

1. Open the charging case and the earbuds will enter Bluetooth pairing mode. The LED indicator will start to flash blue light rapidly.
2. Open your phone's Bluetooth settings, search for Mobvoi Earbuds ANC and pair.

## Cancelling earbuds connection

### Automatic re-connection:

When the earbuds are placed back into the charging case and the case is closed, the Bluetooth connection between Mobvoi Earbuds ANC and the device will stop. When the charging case is opened, Mobvoi

Earbuds ANC will automatically connect back to the same device.

\* If you manually unpair in your phone's Bluetooth settings, automatic re-connection is not supported. Bluetooth connection would have to be re-established manually through the phone.

### Connecting to new devices:

1. Please unpair in Bluetooth settings of original device, then the earbuds will enter pairing mode.
2. Open the new device's Bluetooth settings, search for Mobvoi Earbuds ANC and pair.

## Touch Control

### Touch operations with both earbuds

Function	Left Earbud Operation	Right Earbud Operation
Play/Pause	Double tap the Touch Bar	
Next track	-----	Triple tap the Touch Bar
Accept call	Double tap the Touch Bar	
Hang up / Reject a call	Press the Touch Bar and hold for 2 seconds	
Voice Assistant	Triple tap the Touch Bar	-----
Quiet Mode	Press the Touch Bar and hold for 2 seconds	
Sound-Passthrough Mode	Press the Touch Bar and hold for 2 seconds on Quiet Mode	
ANC-Off Mode	Press the Touch Bar and hold for 2 seconds on Sound-Passthrough Mode	

## Touch operations with single earbud

Function	Left Earbud Operation	Right Earbud Operation
Play / Pause	Double tap the Touch Bar	
Next track	-----	
Accept call	Double tap the Touch Bar	
Hang up / Reject a call	Press the Touch Bar and hold for 2 seconds	
Voice Assistant	Triple tap the Touch Bar	
Quiet Mode	Press the Touch Bar and hold for 2 seconds	
Sound-Passthrough Mode	Press the Touch Bar and hold for 2 seconds on Quiet Mode	
ANC-Off Mode	Press the Touch Bar and hold for 2 seconds on Sound-Passthrough Mode	

## Что в коробке?

## Взаимодействие с основным пользователем

**наушник**

1. Сенсорная панель управления
2. Вентиляционное отверстие, уменьшающее давление
3. Светодиодный индикатор и дополнительный микрофон
4. Микрофон

**Зарядный чехол**

1. Светодиодный индикатор зарядного чехла (только белый)
2. Светодиодный индикатор зарядного чехла (только зеленый)
3. Зарядный порт USB Type-C

## Инструкции перед использованием

При первом использовании Mobvoi Earbuds ANC проверьте светодиодный индикатор состояния батареи.

### Светодиодный индикатор зарядного чехла

Действие	Светодиодный индикатор	Статус
Открытие зарядного чехла / Помещение наушников обратно в зарядный чехол	Горит белый / зеленый светодиод	Готов к использованию
	Мигает белый / зеленый светодиод	Пожалуйста, зарядите чехол
	Светодиод не горит	

### Определение активности светодиодного индикатора наушников:

Светодиодный индикатор	Статус
Светодиод не горит	Нет заряда / ANC в нерабочем режиме
Мигающий красный свет	Низкий заряд (менее 30%)
Быстро мигающий синий свет	Наушники готовы к синхронизации

LED indicator	Status
Мигающий синий свет каждые 5 секунд	Наушник работает
Зеленый светодиод горит в течение 30 секунд	Бесшумный режим
Красный светодиод горит в течение 30 секунд	Режим прямой передачи звука

## Bluetooth-соединение

1. При открытии зарядного чехла наушники переходят в режим сопряжения Bluetooth. Светодиодный индикатор начнет быстро мигать синим светом.

2. Откройте настройки Bluetooth на вашем телефоне, найдите Mobvoi Earbuds ANC и выполните подключение.

Когда зарядный чехол открывается, Mobvoi Earbuds ANC автоматически подключается к тому же устройству.

\*Если вы вручную отключили соединение в Bluetooth-настройках вашего телефона, автоматическое повторное подключение не будет выполняться. Bluetooth-соединение должно быть восстановлено вручную через телефон.

## Отмена подключения наушников

### Автоматическое переподключение:

Когда наушники помещаются обратно в зарядный чехол и чехол закрывается, Bluetooth-соединение между Mobvoi Earbuds ANC и устройством прекращается.

### Подключение к новым устройствам:

Пожалуйста, отмените сопряжение в Bluetooth-настройках на исходном устройстве, тогда наушники перейдут в режим сопряжения с новыми устройствами.

Откройте Bluetooth-настройки нового устройства, найдите Mobvoi Earbuds ANC и выполните подключение.

## Сенсорное управление

Сенсорные операции с **обоими наушниками**

функции	Левый наушник Определение	Правый наушник Определение
Воспроизведение / Пауза	Дважды коснитесь сенсорной панели	
Следующий трек	-----	Трижды коснитесь сенсорной панели
Принять вызов	Дважды коснитесь сенсорной панели	
Закончить разговор / Отклонить звонок	Нажмите и удерживайте сенсорную панель в течение 2 секунд	
Голосовой помощник	Трижды коснитесь сенсорной панели	-----
Бесшумный режим	Нажмите и удерживайте сенсорную панель в течение 2 секунд	
Режим прямой передачи звука	Нажмите и удерживайте сенсорную панель в течение 2 секунд в бесшумном режиме	
ANC в нерабочем режиме	Нажмите и удерживайте сенсорную панель в течение 2 секунд в режиме прямой передачи звука	

Сенсорные операции с **одним наушником**

функции	Левый наушник Определение	Правый наушник Определение
Воспроизведение / Пауза	Дважды коснитесь сенсорной панели

## Schachtelinhalt

Handbuch  
Schnellanleitung  
Aufforderung zum  
Auspacken

## Haupt-Benutzerschnittstellen

### Ohrstöpsel

1. Touch-Bedienfeld
2. Druck-Entlastungsloch
3. LED-Anzeige & Sekundärmikrofon\*
4. Mikrofon

### Ladeschale

1. Ladeschale-LED-Anzeige (nur weiß)
2. Ladeschale-LED-Anzeige (nur grün)
3. USB-Ladeanschluss Typ C

## Anweisungen vor dem Gebrauch

Wenn Sie den Mobvoi Earbuds ANC zum ersten Mal verwenden, überprüfen Sie die LED-Anzeige für den Akkustatus.

### Charging case LED indicator

Vorgang	LED-Anzeiger	Status
Öffnen der Ladeschale / Ohrstöpsel zurück in die Ladeschale einsetzen charging case	Die weiß / grüne LED leuchtet	Bereit zum Einsatz
	Blinkendes weißes / grünes Licht LED aus	Bitte laden Sie die Schale

### LED-Anzeiger der Ohrstöpsel

LED indicator	Status
LED aus	Keine Batterie / ANC-Off Mode
Blinkendes rotes Licht	Schwache Batterie (weniger als 30%)
Schnell blinkendes blaues Licht	Bereit zur Kopplung

LED indicator	Status
Blaues Licht blinkt alle 5 Sekunden	Ohrstöpsel ist aktiv
Grüne LED leuchtet 30 Sekunden	Ruhemodus
Rote LED leuchtet 30 Sekunden	Ton-Durchlassmodus

## Bluetooth-Kopplung

- Öffnen Sie die Ladeschale und die Ohrstöpsel gehen in den Bluetooth-Kopplungsmodus über. Der LED-Anzeiger beginnt schnell blau zu blinken.
- Öffnen Sie die Bluetooth-Einstellungen Ihres Telefons, suchen Sie nach Mobvoi Earbuds ANC und Kopplung,

## Abbrechen der Verbindung der Ohrstöpsel

### Automatische Wiederverbindung:

Wenn die Ohrstöpsel wieder in die Ladeschale gelegt werden und die Schale geschlossen wird, wird die Bluetooth-

Verbindung zwischen Mobvoi Earbuds ANC und dem Gerät unterbrochen. Wenn die Ladeschale geöffnet wird, verbindet sich der Mobvoi Earbuds ANC automatisch wieder mit dem gleichen Gerät.

\*Wenn Sie die Bluetooth-Einstellungen Ihres Telefons manuell entkoppeln, wird die automatische Wiederverbindung nicht unterstützt. Die Bluetooth-Verbindung müsste manuell über das Telefon wieder hergestellt werden.

### Verbindung zu neuen Geräten:

- Bitte trennen Sie die Kopplung in den Bluetooth-Einstellungen des ursprünglichen Geräts, dann gehen die Ohrstöpsel in den Kopplungsmodus über.
- Öffnen Sie die Bluetooth-Einstellungen des neuen Geräts, suchen Sie nach Mobvoi Earbuds ANC und Kopplung.

## Touch Steuerung

### Touch-Betrieb mit beiden Ohrstöpseln

Funktion	Betrieb Linker Ohrstöpsel	Betrieb Rechter Ohrstöpsel
Abspielen / Pause	Doppeltippen Sie auf die Touch-Leiste	
Nächster Titel	-----	Dreifachtippen Sie auf die Touch-Leiste.
Anruf annehmen	Doppeltippen Sie auf die Touch-Leiste	
Auflegen / Anruf ablehnen	Tippen Sie auf die Touch-Leiste und halten Sie sie 2 Sekunden lang gedrückt.	
Stimmen-Assistent	Dreifachtippen Sie auf die Touch-Leiste	-----
Ruhemodus	Tippen Sie auf die die Touch-Leiste und halten Sie sie 2 Sekunden lang gedrückt.	
Ton-Durchlassmodus	Tippen und halten Sie die Touch-Leiste im Ruhemodus 2 Sekunden lang gedrückt

## ¿Qué hay en la caja?

## Principales interfaces de usuario

**Auricular**

1. Panel de control táctil
2. Agujero limitador de presión
3. Indicador LED & Micrófono secundario
4. Micrófono

**Estuche de carga**

1. Indicador LED del estuche de carga (solo blanco)
2. Indicador LED del estuche de carga (solo verde)
3. Puerto de carga USB Tipo C

## Instrucciones antes de usar

Si va a usar sus Mobvoi Earbuds ANC por primera vez, verifique el indicador LED del estado de la batería.

### Indicador LED del estuche de carga

Acción	Indicador LED	Estado
Abra el estuche de carga / Coloque los auriculares nuevamente en el estuche de carga	La luz blanca / verde se enciende	Listo para usar
	Luz intermitente blanca / verde	Cargue el estuche
	LED apagada	

### Indicador LED del auricular

Indicador LED	Estado
LED apagado	Batería descargada / Modo ANC (Cancelación Activa del Ruido) apagado
Luz roja intermitente	Batería baja (menos de 30%)
Luz azul de intermitencia rápida	Listo para emparejar

Indicador LED	Estado
Luz azul intermitente cada 5 segundos	El auricular está funcionando
LED verde encendida por 30 segundos	Modo silencioso
LED roja encendida por 30 segundos	Modo de transferencia

## Emparejamiento de bluetooth

1. Abra el estuche de carga y los auriculares entrarán en el modo de emparejamiento de bluetooth. El indicador LED iniciará una rápida intermitencia de luz azul.
2. Abra los ajustes de bluetooth de su teléfono, busque Mobvoi Earbuds ANC y empareje.

Mobvoi Earbuds ANC y su dispositivo se detendrá. Al abrir el estuche de carga, los Mobvoi Earbuds ANC se conectarán nuevamente al mismo dispositivo de forma automática.

\*Si los desvincula manualmente usando los ajustes de bluetooth, la reconexión no será posible. La conexión bluetooth deberá restablecerse manualmente mediante el teléfono.

## Cancelar la conexión de los auriculares

### Reconexión automática:

Después de colocar nuevamente los auriculares en el estuche de carga y cerrarlo, la conexión bluetooth entre los

### Conexión a nuevos dispositivos:

1. Realice la desvinculación en los ajustes de bluetooth del dispositivo original para que los auriculares entren en el modo de emparejamiento.
2. Abra los ajustes de bluetooth de su nuevo dispositivo, busque Mobvoi Earbuds ANC y empareje.

## Control táctil

### Funcionamiento táctil con ambos auriculares

Función	Funcionamiento de los Auricular izquierdo	Funcionamiento de los Auricular izquierdo
Reproducir / Pausar	Toque dos veces la barra táctil	
Siguiente canción	-----	Toque tres veces la barra táctil
Contestar una llamada	Toque dos veces la barra táctil

## Que contient le boîtier?

## Principales interfaces utilisateurs

### Oreillette gauche, Oreille droite

1. Panneau de contrôle tactile
2. Trou de décompression
3. Voyant LED et microphone secondaire
4. Microphone

### Boîtier de charge

1. Voyant LED du boîtier de charge (blanc uniquement)
2. Voyant LED du boîtier de charge (vert uniquement)
3. Port de charge USB de type C

## Instructions avant l'utilisation

Lorsque vous utilisez les Mobvoi Earbuds ANC pour la première fois, vérifiez l'état de la batterie du voyant LED.

### Voyant LED du boîtier de chargement

Action	Voyant LED	Statut
Ouverture du dossier d'accusation / Remise en place des oreillettes dans le boîtier de charge	LED blanc/vert s'allume	Prêt à l'emploi
	Feu blanc/vert clignotant	Veuillez charger l'affaire
LED éteinte		

### Indicateur LED des écouteurs

Voyant LED	Statut
LED éteinte	Pas de batterie / Mode éteint ANC
Feu rouge clignotant	Pile faible (moins de 30%)
Lumière bleue à clignotement rapide	Prêt à être couplé

LED indicator	Status
Lumière bleue clignotante toutes les 5 secondes	L'oreillette fonctionne
LED verte allumée pendant 30 secondes	Mode silencieux
LED rouge allumée pendant 30 secondes	Mode d'intercommunication du son

## Couplage Bluetooth

- Ouvrez le boîtier de chargement et les écouteurs passeront en mode d'appairage Bluetooth. Le voyant LED commence à clignoter rapidement en bleu.
- Ouvrez les paramètres Bluetooth de votre téléphone, recherchez les Mobvoi Earbuds ANC et apparez-les.

## Annulation de la connexion des oreillettes

### Reconnexion automatique:

Lorsque les écouteurs sont replacés dans le boîtier de chargement et que le boîtier

est fermé, la connexion Bluetooth entre les Mobvoi Earbuds ANC et l'appareil s'arrête. Lorsque le boîtier de chargement est ouvert, les Mobvoi Earbuds ANC se reconnectent automatiquement au même appareil.

\*Si vous désapparez manuellement les paramètres Bluetooth de votre téléphone, la reconnexion automatique n'est pas prise en charge. La connexion Bluetooth devra être rétablie manuellement par le biais du téléphone.

### Connexion à de nouveaux appareils:

- Veillez désapparer les paramètres Bluetooth de l'appareil d'origine, puis les écouteurs entreront en mode d'appairage.
- Ouvrez les paramètres Bluetooth du nouvel appareil, recherchez les Mobvoi Earbuds ANC et apparez-les.

## Contrôle tactile

### Opérations tactiles avec les deux oreillettes

Fonction	Fonctionnement des Oreillette Gauche	Fonctionnement des Oreillette Droite
Lecture / Pause	Double-cliquez sur la barre de touche

#### Manufacturer

Shenzhen Angsi Technology Co., Ltd  
6/F, Block B, Dingxin Science Park, Hong  
Lang North No.2 Road, Bao'an District,  
Shenzhen PRC

We provide a statutory warranty service in the country where you purchased the device from.

### Safety and Precaution

#### Important safety information

Handle Mobvoi Earbuds ANC and the charging case with care. They contain sensitive electronic components, including batteries. Do not drop, burn, puncture, crush, disassemble or expose the device to excessive heat or liquid, which may cause damage, battery leakage, overheating, and a possible risk of fire, explosion or personal injury. Please do not use Mobvoi Earbuds ANC and/or the case if they are damaged.

#### Bluetooth®

The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Shenzhen Angsi Technology Co., Ltd is under license. Other trademarks and trade names are those of their respective owners. To turn off Bluetooth on Mobvoi Earbuds ANC, put them in the case and close the lid.

#### Batteries

Mobvoi Earbuds ANC contains:  
Secondary (rechargeable) Li-Ion Polymer

Normal Voltage 3.7V  
55mAh 0.204 Wh  
Model: BP581113

Date of Manufacture: refer to sales label information

Do not attempt to replace Mobvoi Earbuds ANC or the case's batteries by yourself, as it may cause damage to the batteries, which could lead to overheating and/or personal injury. Any battery servicing should only be performed by the manufacturer or repair service centers authorized by the manufacturer.

#### USB Cable and Charging Case

Avoid prolonged skin contact with the connector when the USB cable is plugged into a power source because it may cause discomfort or injury. For example, while the case is charging through the USB cable and the USB cable is plugged into a power source, do not sit or sleep on the USB connector or place it under a blanket, pillow or your body. Take special care if you have a physical condition that hinders your ability to detect heat.

Please only use the manufacture-recommended charging case and charging accessories for charging. Using incompatible accessories may lead to a

risk of fire, explosion and/or burns. Please do not touch any exposed metallic areas on both charging case and USB cable when the device is plugged into a power source to avoid an electric shock. When charging, please ensure that the charging case, USB cable and earbuds are in a dry environment. Please avoid touching the charging case, USB cable and earbuds with wet hands and ensure that they have not been placed in water. A moist environment may cause electrocution or short circuit, which in turn carries a risk of fire, explosion and/or burns. In the event that the device overheats, please cease usage of the device immediately; if the device is currently charging, please unplug the USB charging cable from the case. Contact the manufacturer's after-sales support to receive assistance in order to prevent burns or possible battery explosion.

#### Hearing loss

Listening to sound at high volumes may permanently damage your hearing. Background noise, as well as continued exposure to high volume levels, can make sounds seem lower than it actually is. Check the volume before inserting Mobvoi Earbuds ANC in your ear.

#### WARNING

To prevent possible hearing damage, do not listen at high-volume levels for long periods of time.

#### Driving hazard

Use of Mobvoi Earbuds ANC while operating a vehicle is not recommended and may be illegal in some jurisdictions.

Check and obey the applicable laws and regulations in any specific jurisdiction on the use of earphones while operating a vehicle. Be careful and attentive while driving. Stop listening to your audio device if you find it's disruptive or distracting while operating any type of vehicle or performing any activity that requires your full attention.

#### Choking hazard

Mobvoi Earbuds ANC and the charging case may present a choking hazard or cause other injuries to small children. Please keep the device out of the reach of small children in order to prevent them from swallowing or biting the device.

#### Driving hazard

If there are any special regulations in force in any area forbidding the usage of any electronic devices, please follow them as Mobvoi Earbuds ANC may cause interference with other equipment which may increase the risk of accidents and danger.

Do not use your device in an aircraft, as it can interfere with the aircraft's electronic navigational instruments. Please comply with the airline's rules and regulations.

#### Medical device interference

Mobvoi Earbuds ANC and charging case contain components and radios that emit electromagnetic fields. They also contain magnets. Together, these electromagnetic fields and magnets may interfere with pacemakers, defibrillators, and other medical devices. Please abide by the rules and regulations in certain health care facilities which prohibit the usage of said devices. When in such places, either power off the device or maintain a safe distance of separation between Mobvoi Earbuds ANC, the case and the specified medical device. Should the need arise to use Mobvoi Earbuds ANC and the medical

device simultaneously, please consult your healthcare provider and medical device manufacturer to obtain specific and relevant usage information of such medical device. Stop using Mobvoi Earbuds ANC and the case if you suspect that they are interfering with your pacemaker, defibrillator or any other medical device.

#### Skin irritation

Earphones can lead to ear infections if not properly cleaned. Clean the Mobvoi Earbuds ANC regularly with a soft lint-free cloth. Do not allow any moisture to seep in any openings, or use aerosol sprays, solvents, or abrasives as these may cause damage to the device. Please discontinue usage should a skin problem appear. If the problem persists, please visit your healthcare provider to seek professional medical advice.

#### Electrostatic shock

When using Mobvoi Earbuds ANC in an area where the air is very dry, it is easy to build up static electricity and possible for your ears to receive a small electrostatic discharge from Mobvoi Earbuds ANC. To minimize the risk of electrostatic discharge, avoid using Mobvoi Earbuds ANC in extremely dry environments, or touching a grounded and/

or unpainted metal object before inserting Mobvoi Earbuds ANC.

#### Operating environment

It is recommended to use your device at temperatures from **-5°C-40°C** and store it at temperatures from **0°C-30°C**. Using or storing your device outside the specified temperature ranges may result in damage to the device. Please do not use your device outdoors during rain or thunderstorms in order to prevent electric shock or device malfunction. Please do not use your device in moist, rainy, dusty or oily environments in order to prevent an internal short-circuit. Please do not use or store your device at refueling points (gas stations) or in potentially explosive environments. Please avoid placing the device in liquids or exposed to a pressurized water stream, for instance during a shower. Please do not wear your device when showering or swimming. This may cause the device to malfunction. Sweat or liquids present on the charging terminals may cause the earbuds to decay. Please ensure that both the charging terminals and earbuds are cleaned before placing the earbuds back into the charging case. Please follow the instructions set forth

in the "skin irritation" section in the user manual to clean the earbuds.

#### CE Statements

Hereby, Shenzhen Angsi Technology Co., Ltd declares that this [ Mobvoi Earbuds ANC, CXH-A] is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. The full text of the EU declaration of conformity is available at [www.mobvoi.com](http://www.mobvoi.com)

**EU Frequency: 2.4-2.4835GHz**  
**The maximum RF Power: <100mW**

#### RECYCLING

This product bears the selective sorting symbol for waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European Directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

#### CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

#### FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. FCC ID Number is 2AGA6-CXHA. Operation is subject to the following two conditions:  
this device may not cause harmful interference,  
and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or relocate the receiving antenna
  - Increase the separation between the equipment and receiver
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is currently connected to
  - Consult the dealer or an experienced radio/TV technician for help
- Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### IC Compliance Statement

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:  
(1) this device may not cause interference,  
and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le

brouillage est susceptible d'encompromettre le fonctionnement.  
This device complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment.

Cet appareil est conforme aux limites d'exposition aux rayonnements de la FCC et de l'IC établies pour un incontrôlé environnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
