

<p>Solder Board-Component View 1</p>	 A photograph showing a small, yellow, rectangular component with two thin wires (one red, one black) attached. The component is placed on a blue perforated surface. A black ruler with white markings is positioned below the component for scale. The ruler shows measurements in millimeters, with the component's length being approximately 10 mm.
<p>Solder Board-Component View 2</p>	 A photograph showing a small, green, rectangular component with a complex surface, likely a microcontroller or similar integrated circuit. The component is placed on a blue perforated surface. A black ruler with white markings is positioned below the component for scale. The ruler shows measurements in millimeters, with the component's length being approximately 10 mm.
