Bluetooth Receiver

WBA9-1007

- 1) Using included micro USB cable with a USB charger (not included), fully charge your new Monster Bluetooth Receiver for a minimum of three (3) hours.
- 2) Turn on by pressing the multifunction button (MFB) until the LED indicator flashes red and blue. Unit will enter pairing mode. Enable Bluetooth search mode on your audio device and search for pairing name "Monster BT Receiver" and select it on your audio device. Once the Monster Bluetooth Adapter is connected the LED indicator will slowly flash blue.
- 3) You can use the included 3.5mm adapter or aux cable as needed. Plug in headphone or stereo input into jack.

The unit will automatically switch to phone mode when receiving calls and will switch back to music mode when call is complete.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
