Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. In addition to the list that has been allowed to be under the permanent confidentiality, Earlens Corporation would like to hold the user manual under the same category as the user manual is in draft form and subject to review and modification by the Food and Drug Administration (FDA).

*Short term confidentiality:* Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

The fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Jones", with a long horizontal flourish extending to the right.
