Frequency:	20Hz – 24KHz
Working distance:	10m / 30Ft
Earbuds battery capacity:	40 mAh
Charging box battery capacity:	300mAh
Charging time:	2-3Hours
Stand by:	Up to 50 Hrs

# Parts and Features

## **Charging the Earbud**

1. Place the earbuds into the charging case. The earbuds will be turned off automatically. Press the power button on the charging case to charge the earbuds. The LED light turns on indicating the unit is in charge mode. Press the power button twice to stop charging, the LED light will go off.
2. When the battery is fully charged the light will turn off automatically.

## **Charging the Case**

1. Connect the charging case via USB cable to charge the case.
2. During charging the LED light flashes. When charging is complete the lights will remain solid.

# Operation

## Turning ON/Auto Power/Auto Pair

**1**

Remove both earbuds simultaneously and insert in your ears. Once the earbuds are taken out of the charging case the earbuds will Power ON Automatically and after 2 seconds the earbuds will pair together. And now the earbuds are ready to pair to your device.

**2**

Turn on the Bluetooth® Feature on your device, the device will search for all the Bluetooth devices (see the user guide of your phone for instructions) and select T10 from the Bluetooth device list. Once selected the device will pair with your T10 earbuds.

**Note:** In the event, the earbuds do not connect automatically once removed from the case, click the left earbud (MFB) and wait for 5 sec. If it still does not pair the earbuds, switch off both by pressing MFB for 5 sec (you will hear Power OFF in both ears) and inserting them into the cradle, if the two red led lights up, repeat step 1.

## Turning OFF

1. Press the MFB of the earbuds for about 5 seconds and the earbuds will be powered off automatically.
2. If the earbuds are away from your Bluetooth devices for over 5 minutes the earbuds will power off automatically. Thus, saving the life of the battery.
3. In power off mode, press the MFB of the earbuds for 2 seconds and the earbuds power will turn on.

## Phone Calls

Make sure the earbuds are connected with your mobile device. Once you receive a call you have the following 3 options.

### **1** To Answer the call

Press once the MFB of any earbud.

### **2** To Hang Up a Call

Once the call is completed, press the MFB of any earbud once to disconnect.

### **3** To Reject the call

Press and hold any MFB for 2 sec, to reject the call.

Note: In standby mode, double touch the earbuds, to re-dial the last number called.

## Listening to Music

### **1** Play

Make sure the earbuds are connected with your device, once connected select the music from your device to play.

### **2** Pause

While playing touch the MFB of any earbud once to pause the music, touch again to play.

## Quick reference Guide

1. Power On: Press MFB for 2 secs on both earbuds till you hear Power ON.
2. Power Off: Press MFB for 5 sec on both earbuds till you hear Power Off.
3. Pairing Mode: Press MFB for 5 sec in power off mode, until you hear Ready to Pair.
4. Play/Pause: While playing music, press MFB of any earbud once.
5. Incoming Call: Press the MFB on either of the earbuds to answer the incoming call.
6. Disconnecting the Call: Press the MFB on either of the earbuds once to disconnect the call.
7. Reject Incoming Call: Press and hold MFB of earbuds to reject.
8. Recall Last Number: Press twice the MFB of earbuds.

## Trouble Shooting

Trouble	Solution
Mobile device cannot find the earbuds	Check the earbuds are powered on.
Cannot turn the units on	Charge the units for 1- 2 hours.
Turning off automatically	Possible low battery. Charge the earbuds.
Noise when connected to a mobile device	Low battery, charge the earbuds. Obstruction between the device and earbuds. Distance between the Phone and earbuds is beyond signal range.

## Warrenty Information

---

### **1 YEAR LIMITED WARRANTY**

The AT&T brands are used under license. Any repair, replacement, or warranty service, and all questions about this product should be directed to Concept 101 LLC at [www.att.com/electronics](http://www.att.com/electronics) or call **1(888) 920-8680** from the USA or Canada. Concept 101 LLC warrants that the product will be free from defects in material, parts and workmanship for the period of one (1) year from date of purchase. Concept 101 LLC agrees that it will, at its option, replace the defective product with either a new or remanufactured product equivalent to your original purchase during the warranty period. Please be advised the returned product must carry the proof of purchase.

## FCC Statement

---

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC RF Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
