To whom it may concern

FCC Multiple listing of Gaming controller

Scuf Gaming wishes to have a multiple listing of Microsoft model 1914, FCC ID: C3K1914.

- As per KDB 249634 and §2.933 the following supporting exhibits have been uploaded:
 - Form 731 complete with Grantee Code and FRN for the new grantee, Scuf Gaming
 - Signed letter from original grantee party including details of FCC IDs and dates of original grants. (please note this letter covers other variants not included within this application)
 - Photographs required by Sections 2.1033 (b)(7) or (c)(12) showing the exterior appearance of the equipment.
- Furthermore, I confirm that there is no change in the design, circuitry, or construction purview of a Class 1 permissive change described in §2.1043, and the original test results continue to be representative of and applicable to the equipment as the minor modifications to digital circuitry within the equipment do not degrade the characteristics reported by the original manufacturer and accepted by the Commission when certification was granted.

Please do not hesitate to contact me should you have any questions.

Yours Faithfully

Charlie Blackham
Director
