User Manual

Snap AS02-PAR38NAE26 LED Bulb

Outdoor HD Security Camera
with LED Floodlight

Features

- Simply installation, and no wires required
- 1080P High-Quality live stream & recording
- Advanced motion detection &
- instant alerts
- Weatherproof for outdoor usage
- 2-way audio intercom
- Automatic night vision
- Smart lighting control
- FREE 24hrs continues cloud recording and optional paid plans

Box Contents

- One Snap AS01-PAR38 Bulb
- Quick Start Guide
- User Manual
- Limited Written Express Warranty
- One Pendant Light Holder
- One Ethernet Cable
- One Screwdriver

Product Specifications

Video & Audio

- Resolution: Up to 1080P(1920 x 1080), H.264 encoding
- Field of view: 140° Ultra wide angle
- Image sensor: 1/2.7" Progressive scan CMOS
- Night Vision: 850nm Infrared LEDs, illuminates up to 35 feet
- Audio: Speaker & Microphone

Lighting

- Bulb Socket / type:E26 / PAR-38
- Brightness / Color temperature / Angle:850 lm / 3000K / 36°
- LED lifetime:25,000 hours

Wireless

- Frequency:2.4 GHz
- Encryption: WEP/WPA/WPA2
- Range:300 feet line of sight

General

- Video storage: Sengled cloud storage system
- Power: 100-120V AC 50/60Hz
- Operating Temperature: -20°-+40°C/-4°F-+104°F
- Ingress Protection:IP54 and 100% U.V.protection
- Color: White
- Dimension: 5.7in(H)x 4.8in(Dia.)

- Weight: 1.3lb/604g (approx.)
- Certifications: UL,CUL,FCC, IC ,LM-79

Snap Components

Factory Reset:

Open the interfaces cover, press and hold the reset button until the LED light blinks and indicator light turns red.

ATTENTION

- ADDED WEIGHT OF THE DEVICE MAY CAUSE INSTABILITY OF A FREE-STANDING PORTABLE LUMINAIRE.
- THIS DEVICE IS NOT INTENDED FOR USE WITH EMERGENCY EXITS.
- DO NOT USE WITH DIMMERS.
- SNAP BULBS REQUIRE CONSTANT POWER TO OPERATE.
- FIXTURES WITH MOTION SENSORS MAY STOP THE FLOW OF ELECTRICITY TO THE SOCKET. EITHER CHANGE THE FIXTURE OR MODIFY THE EXISTING FIXTURE TO ALLOW FOR A CONSTANT FLOW OF ELECTRICITY TO THE BULB.
- THE EFFECTIVE RANGE OF YOUR WI-FI ROUTER MAY NOT BE SUFFICIENT. TO REACH THE SNAP BULB, A WI-FI EXTENDER MAY BE REQUIRED TO INCREASE THE RANGE OF YOUR WI-FI NETWORK.
- IN CANADA, THE DEVICE IS RESTRICTED TO INDOOR OPERATION ONLY IN THE BAND 5150-5250 MHZ.
- VISIT SENGLED.COM FOR MORE INFORMATION AND CUSTOMER SUPPORT.

No Dimmers

No Motion Sensors

No Weak Wi-Fi

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

IC Radiation Exposure Statement for Canada

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

User manuals for transmitters equipped with detachable antennas shall also contain the following notice in a conspicuous location:

This radio transmitter (identify the device by certification number, or model number if Category II) has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.

IMPORTANT NOTE:

Radiation Exposure Statement:

This equipment complies with "Industry Canada RSS-102 for radiation exposure limits set forth for an uncontrolled environment".

This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.
