

VFCNEXGEN-GTX

Refrigeration Monitoring & Alarm System

WARNING

Your VFCNEXGEN-GTX contains food-safe propylene glycol. Place the VFCNEXGEN-GTX upright on a center shelf of your refrigerator or freezer. The top surface of your VFCNEXGEN-GTX must remain clean and unobstructed. Your VFCNEXGEN-GTX cannot properly monitor your refrigeration system if it is beneath other objects. If obstructed, the VFCNEXGEN-GTX may fail to deliver alert notifications or may deliver false notifications that your refrigeration system is not functioning properly. Do not place **anything** on top of your device!

INSTRUCTION TO THE USER

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Consult the dealer or an experienced radio/TV technician for help.

The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

FCC ID: 2AGOHGTX

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
