Matthew

Wireless Charging Mat

Quick Start Guide
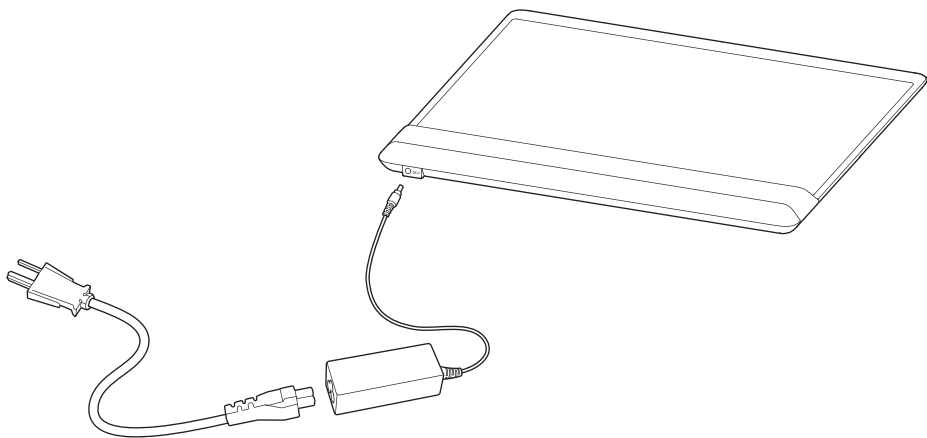

(intel)

Meet Matthew,
a Wireless Charging Mat.

You're only a few steps away from wireless charging.

First

Let's plug Matthew in.

Next

Put your device on the mat, and you're charging!
Here are a few tips to remember:

Charging Surface

Matthew can simultaneously charge:

• One laptop, or

• One tablet and one phone, or

• Up to three phones

Matthew uses Rezence technology, so your
devices must also use Rezence to charge.

Status Indicator

Different lights mean different things:

White
Ready to charge

Green
Charging

Amber (Breathing)
Firmware update in progress

Amber (Blinking)
Error

If you see a blinking amber light, check your device for more information.

Surface Indicators

These corners indicate the active charging area, make sure smaller devices are placed within them with the screens facing up.

That's it!

Really, that's it.
