

CONFIDENTIALITY REQUEST for Certification Service in USA

Federal Communication Commission
Equipment Authorization Division, Application Processing Branch
7435 Oakland Mills Road
Columbia, MD 21048

Zurich, 02 December 2015

TO WHOM IT MAY CONCERN

Pursuant to Paragraphs §0.457 and 0.459 of the Commission's Rules (47 C.F.R.) and Section §552(b)(4) of the Freedom of Information Act, we request confidentiality for the following products:

<u>FCC ID</u>	<u>Model name</u>
2AGUC-KDGXVA	Kedge XV

For the product stated above, we request permanent confidentiality for exhibits which contain Operational Description, Block Diagram, Schematics, Parts Lists, or Internal Photos.

The above exhibits contain our trade secrets and proprietary information that could be of significant economic value to our competitors. They are not generally known, publicly available, or reasonably ascertainable.

With respect to the internal photos, we would like to point out the following special conditions which we trust you will find sufficient to grant permanent confidentiality:

- Internal photographs of the devices would allow our competitors to identify key components in our design.
- All sales of these devices are subject to a non disclosure agreement (NDA). The product is a non-consumer device and customers are required to prevent all non-authorized access to the device as part of their purchase contract obligations. Purchase of the product will be subject to the customer signing a non disclosure agreement (NDA) that does not allow the disclosure of internal photographs of the device. Furthermore, the contract of purchase does not allow customers to sell the device to third parties. Any person in possession of the device will thus be under NDA. We attach an example of such an NDA as part of this application.

If you have any questions, please feel free to contact me at the address shown below.

Sincerely,

Name: Markus Hehn
