STARRY INC.
Assembled in U.S.A.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTICE: Use caution when operating equipment. Radio frequency fields may exceed the FCC's guidelines for extended human exposure if improperly operated. Maintain a safe distance from equipment. Limit direct contact unless necessary for installation and maintenance.

Label Location

The product label is placed on the bottom of the system so it is weather-protected and visible during installation.
