Bluetooth Headphone

BT86

User Manual

SPECIFICATIONS

Bluetooth version: Bluetooth V3.0+EDR

Support: HFPV1.5, A2DPV1.2, AVRCPV1.4, HSP1.2, GAVDP1.2, IOP

SNR: 96dB SNR stereo ADC and stereo DAC

Sensitivity: -80dBm<0.1%BER

Transmission distance: 10m

Frequency: 2.402 -2.480GHZ

Transmission power: CLASS2, 4dbm

Audio SNR: ≥75dB

Audio performance: SBC decoding

Battery capacity: 3.7V/300mAH L

Charging voltage: DC5V

Charging time: about 1 hour

Working currency: ≤40mA

Standby currency: <500uA

Working temperature: -40ºC to +85ºC

Play time: about 7 hours

Working time: about 8 hours

Standby time: about 400 hours

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
