Description to QR code scanning by cellphone

The version with the function of QR code scanning supports this function and can recognize the QR code for payment by cellphone.

Regular fault debugging

Problems	Solutions
What if the printer is dead?	Press the ON button for 11 seconds, then the printer is off. Click the ON button to turn the printer on.
What if the printer does not work?	Make sure the cover is closed correctly. Make sure whether the paper is jammed.
What if the printed paper is blank?	Please check whether the paper roll is put upside down; Please check whether wrong thermal paper roll is used.
What if the printing is blur?	Please check whether the thermal printhead is dirty. If it is, please clean it with swab that has been dipped in anhydrous alcohol. Please use quality thermal paper to avoid blur printing due to bad quality of paper.

General parameters of the POS

Operating system	Android 6.0 sun mi secure operating system	
Processor	Qualcomm Snapdragon with Octa-Core	
Memorizer	8GB ROM+1GB RAM	
Screen	Main screen 11.6 inches HD resolution 1366 x 768	
Touch screen	G+G capacitive multi-touch touch screen	
Customer display	128 x 40 Dots	
Printer	High-speed 58 thermal printer is installed, with a printing speed of 70 mm/s supporting the paper roll with a maximum diameter of 60 mm.	High-speed 80 thermal printer is installed, with an automatic cutter and a printing speed of 160 mm/s supporting the paper roll with a maximum diameter of 60 mm.
Wi-Fi	2.4G, support IEEE 802.11 b/g/n	
Bluetooth	Support Bluetooth 2.1/3.0/4.0 support BLE	
QR code scanning camera	Module, Only support mobile phone QR code.	
NFC	Module, Only M1 cards are supported.	
Button	ON button (screen-locking button) + volume increase/decrease button	
Loudspeaker	1.2W	
External memory card	Support MicroSD(TF), maximum 64G	
External interface	4 x USB TypeA port, 1 x RJ11 serial port, 1 x RJ12 cashbox port, 1 x RJ45 LAN port 1 x audio output port, 1 x power supply port, 1 x Micro-USB debugging port	
Power adapter	Input: AC100~240V/1.7A Output: DC24V/2.5A	
Size	290mm x 290mm x 100mm	
Working environment	Working temperature: -10° C~55° C Storage temperature: -20° C~60° C	

Name and content of toxic and harmful substances contained in this product are shown in the following table

Name of parts	Toxic and harmful substances and elements					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Circuit board	×	○	○	○	○	○
Shell	○	○	○	○	○	○

○ It indicates that the content of toxic and harmful substances in all homogeneous materials of this part is below the limit specified in SJ/T11363-2006.

× It indicates that the content of toxic and harmful substances is higher than the limit specified in SJ/T11363-2006 in at least one homogeneous material of this part; however, the reason why the toxic substance of that part exceeds the limit is that there is no applicable material to replace it currently.

For products that have reached or passed the service years for environmental protection, they should be recycled according to Measures for Control and Management of Electronic Information Products and should not be thrown away at will.

Technical features and characteristic

the product includes the following features and characteristics:

WIFI	
Operation Frequency	2412MHz~2462MHz 802.11b/802.11g/802.11n(H20/H40)
Maximum Power	20.49dBm
BT	
Operation Frequency	2402~2480MHz
Maximum Power	9.81dBm
NFC	
Operation Frequency	13.56MHz

Contents of Package

- 1X main machine
- 1X user manual (including contents of package, warranty card, qualification certificate)
- 1X power adapter

Precautions

Warning

- Please insert the AC plug into the AC outlet according to the identifying input on the power adapter;
- It is prohibited to use the device in any places with potential explosive gases;
- Nonprofessionals shall not open the power adapter anyhow so as to avoid dangers;
- The device is a Grade A product. In living environment, the product may cause radio interference. Therefore, users may be required to take practical measures against the interference.
- About the battery replacement:
 1. It may cause explosion with wrong type battery
 2. Old battery which is replaced should be handled by repair man, do not put it in fire!
- Adapter shall be installed near the equipment and shall be easily accessible.
- The operating temperature of the device between -10°C to 55°C .
 - The device complies with RF specifications when the device used at 20cm from your body.
- This product can be used across EU member states.

Recommendation

- Do not use the device near water or in humid environment. Keep liquid from falling onto the terminal;
- Do not use the device in extremely cold and hot environment, e.g. around fire or lighted cigarettes;
- Do not smash, throw or bend the device;
- Use the device in clean and dustfree environment as much as possible and keep small items from falling into the terminal;
- Do not use it near medical devices unless permitted.

Important Safety Instructions

- Avoid installing or using during thunder and lightning, other wise lightning stroke may occur;
 - Get off the power immediately if there is abnormal smell, overheating or smog;
 - Do not touch the sharp paper cutting tool!

Statement

The company is not responsible for the following behaviors:

- Damages caused by using and maintaining the device without following the User Guide;
- Damages or problems caused by selection of objects or Consumables (products which are not the initial ones provided or recognized by the company).
In this case, the company will not undertake any responsibility. No one is entitled to modify or change the product unless permitted by the company.

Disclaimer

Discrepancies between the product and the file concerning details may raise due to product updates. Please be subject to the material object. The company reserves the right to interpret the file and the right to revise this manual without prior notices.

Please make sure the temperature for adapter will be from -10°C to 55°C .

Please make sure the temperature for device will be from -10°C to 55°C .

EU Regulatory Conformance

Hereby, Shanghai Sunmi Technology Co., Ltd. declares that the radio equipment type is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: www.sunmi.com

Notice: The device complies with RF specifications when the device used at least 20cm from human body.

FCC Regulations:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

Notice for Canada

This device complies with Industry Canada's licence-exempt RSSs.

Operation is subject to the following two conditions:

(1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
