### Definition of S/N

S/N : A521L 21 24 12345 S

### Notes:

1. Face stock: Printable 25#PET, Matte
2. Substrate: 50#PET
3. White background with black print, printed on the Face stock, TTR:B110CR
4. The QR code contains ICC ID, IMEI, S/N  
ICC ID:12345678901234567890,IMEI: 123456789012345,S/N:A521L212412345S
5. Operating temperature: -40°C ~+ 80°C
6. All materials and processes must comply with RoHs and REACH
7. Alcohol friction resistance test:  
It rubbed against the felted wool which has been immersed into absolute alcohol and with 500g weights back and forth for 50 times in the direction of 90 degree vertical.
8. Rubber friction resistance test:  
It rubbed against the rubber and with 500g weights back and forth for 50 times in the direction of 90 degree vertical

### Label rules for ATD521L :

- The below parts are variable
  - QR code: According to the actual production
  - IMEI: According to the actual production
  - S/N: According to the actual production
  - Date Code: According to the actual production date
