

# Pivot Quick Start Guide

## PIVOT

THE MOST ADVANCED WEARABLE TECH FOR TENNIS

MOTION CAPTURE

INJURY PREVENTION

MOBILITY

DATA ANALYTICS

 **TURINGSENSE**  
PIVOT TO PERFECTION

# Required Materials:

- Hub
- iPad
- PIVOT app
- Cradle
- Body straps -OR- Shirt

## Step 1 - Preparation:

- Turn the hub on by holding the power button for 2 seconds. The light should start blinking green.

## Step 2 - Setup:

- Connect to hub Wi-Fi through iPad settings app. The name should begin with the hub number (Ex: H01, H02) and the password is “hubhubhub”
- Exit and open the Pivot app
- Press “Request Password”
- To begin setup tap the red **X** on the bottom left of the screen, which indicates that the iPad and hub are not yet connected.

## Step 3 - Connection:

- There should be a light blue “Start” button at the bottom of the screen. Tap it, and the iPad and hub will connect. The hub’s blinking green light will turn solid.
- Tap “Next”

## Step 4 - Initialization:

- The lights on the hubs should be light blue now. If not, restart setup process.

## Step 5 - Record:

- Select “Play Tennis” to record a clip of your motion or play the “Imitation Game” to test your motion against a recorded clip.

## FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
