

<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a blue printed circuit board (PCB) with various components. The board is laid flat on a blue textured surface. A black ruler with white markings is placed vertically on the left side of the board, showing measurements in millimeters. The board features several large, rectangular, silver-colored components, likely heat spreaders or shields, and smaller electronic components. The ruler markings are visible on both the left and bottom edges of the image.</p>
<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of the same blue PCB as in view 3, but with the silver-colored components removed. This view shows the underlying circuitry, including various integrated circuits, capacitors, and other electronic components. The board is placed on the same blue textured surface with the black ruler for scale. The ruler markings are visible on the left and bottom edges.</p>

<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph of a blue printed circuit board (PCB) component, labeled '5', positioned against a blue background. The component is L-shaped and features several silver solder joints along its bottom edge. A white rectangular label is affixed to the top surface. A black ruler with white markings is placed below the component, showing a scale from 0 to 100 millimeters. The component's length is approximately 100 mm, and its width is about 20 mm. The ruler is oriented vertically on the left side of the image.</p>
<p style="text-align: center;">Solder Board-Component View 6</p>	 <p>A photograph of a blue printed circuit board (PCB) component, labeled '6', positioned against a blue background. The component is L-shaped and features several silver solder joints along its bottom edge. A white rectangular label is affixed to the top surface. A black ruler with white markings is placed below the component, showing a scale from 0 to 100 millimeters. The component's length is approximately 100 mm, and its width is about 20 mm. The ruler is oriented vertically on the left side of the image.</p>
