At a Glance

Multi Function Button (MFB)

- Press to play and pause music
- Press to answer and end calls
- Press+hold to reject incoming calls
- Double press for last number redial
- Press+hold to activate Siri or Google Virtual Assistant

Get Started

For Home

- 1 Using included Micro USB cable & USB Wall Charger, fully charge your new Monster Bluetooth Audio Receiver for a minimum of three (3) hours.
- 2 Connect the Bluetooth Audio Receiver to your home stereo or headphones aux port using included 3.5mm Aux Cable. (For audio devices with RCA output, the RCA to 3.5mm Adapter may be used.)

For Car

- 1 Using included Micro USB cable & USB Car Charger, fully charge your new Monster Bluetooth Audio Receiver for a minimum of three (3) hours.
- 2 Connect the Bluetooth Audio Receiver to your car stereo's aux port using included 3.5mm to 3.5mm Adapter (or the 3.5mm Aux Cable if more length is needed).

Pairing

- 3 Enable Bluetooth search mode on your audio device and search for pairing name "MONSTER MBA9-1009". When found, select it on your device to pair.
- 4 Once the audio receiver is connected, the LED indicator will slowly flash blue, indicating that the receiver is ready to use.

Play Music

Use the included 3.5mm adapter or aux cable as needed. Plug the receiver directly into a car or home stereo input aux jack. For headphone use, plug headphones directly into Bluetooth Audio Receiver. Press the Multi-Function Button (MFB) to play/pause music.

Activate your Voice Virtual Assistance

Siri or Google
Press and hold the Multifunction Button (MFB) for 3 seconds to activate, then speak through receiver when prompted.

“Hey Siri” or “OK Google”
Experience voice control via your smartphone’s “always listening” feature and avoid manually pressing MFB to activate your virtual assistant. Just activate your “Hey Siri” or Google “Voice Match” feature (per your smartphone’s instructions) and speak directly to your phone, then through the receiver.

5

Multi Device Pairing

This feature will allow two devices to be connected simultaneously, allowing both individuals to separately control their music and/or use hands free talking. Pair the first device as noted in the “Get Started” section, then “disconnect” (while still paired) and pair the second device. Once a second device is paired, you can then re-connect the first device.

Hands-free Talking

The Bluetooth audio receiver will automatically switch to phone mode when receiving calls and will switch back to music mode when call is complete.

Press MFB to answer and end calls.
Double press MFB for last number redial.
Press MFB for 3 seconds to reject an incoming call.

Notice

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s warranty or authority to operate the equipment.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed or mobile condition. The minimum separation distance is 20cm.

7

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules, these limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications or television reception. However, there is no guarantee that interference will not occur in a particular installation. If this occurs, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult an experienced radio/TV technician for help or contact the customer service number below.
