## Bluetooth 2-in-1 Wireless Audio Receiver PBA9-1007-BLK

**Package Contents:**  
3.5mm Male to Male Aux Adapter  
Micro USB Charging Cable  
Manual

1. Charge your new *Bluetooth® Adapter Wireless Audio Receiver* by connecting the included micro USB cable to a USB power outlet (not included). Please allow approximately 3 hours for a full charge.
2. Turn Bluetooth® Adapter on by holding the multifunction button until the LED indicator flashes red and blue. Plug headphones or stereo input into the jack. Please utilize the included adapter as needed.
3. The Bluetooth® Adapter will enter pairing mode. Allow your device to be discoverable and search for the pairing name "BT Receiver" and select it on your device. Once the Bluetooth® Adapter is successfully connected, the LED indicator will stop flashing and remain solid blue.

The Bluetooth® Adapter will automatically switch to "phone mode" when receiving calls and switch back to "music mode" when your phone call has ended.

### CARE AND MAINTENANCE

- Wipe the product with a damp cloth and dry thoroughly
- Store the product in a dry area
- Do not place the device on or near any hot surfaces
- Please keep this manual in a safe place for future reference

### IMPORTANT

- Do not use the product if it has been damaged in any way
- Do not use the speaker for anything other than its intended use
- Keep out of reach of children as this product is not a toy

#### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### **RF Exposure Statement**

**To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter**
