QUICK START GUIDE

1. Screw the Smart Light Bulb into a desired light socket. The Smart Light Bulb will light up in warm white to indicate it is ready for network setup.

2. Make sure your iPhone or iPad (iOS 8.1 or later) is connected to a 2.4GHz Wi-Fi network. Using the router utility software, shutdown 5GHz Wi-Fi networks.

3. Download and open the free Koogeek Home app from the App Store.

4. Log in or sign up for a Koogeek account or simply tap Skip.

5. Tap "+" on the top right corner and follow the on-screen directions to complete network setup.

464-90-808
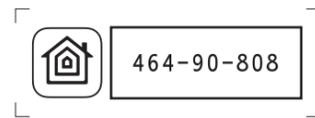

Note:
To add more light bulbs (or repeat the Smart Light Bulb setup process), tap "+" and you will see the accessory list. Each accessory has an identification code, e.g., Koogeek-XXX-XXXXXX. Make sure the last 6 characters of the identification code is consistent with the last 6 characters of MAC on your Smart Light Bulb.

▶ 1

6. When prompted, scan the setup code or manually enter the setup code, and then follow the step to add the device to the Home and Room. Please keep the setup code for future use.

7. You can assign a name to your Smart Light Bulb and use this name when speaking to Siri. For example, you can name your Smart Light Bulb "Bedroom Light", then launch Siri and speak "Turn on the Bedroom Light".

8. Set up customized scenes to control multiple devices with a single command. For example, if you assign the "I'm going to bed" command to the scene of turning off bedroom light and turning on the living room light, when you speak "I'm going to bed" to Siri, everything is done.

9. For troubleshooting visit **www.koogeek.com**

Note:
The use of a HomeKit-enabled accessory need the follow permissions:
Settings > iCloud > iCloud Drive > Turn On
Settings > iCloud > Keychain > Turn On
Settings > Privacy > HomeKit > Koogeek Home > Turn On

Smart Light Bulb Overview

E26 base
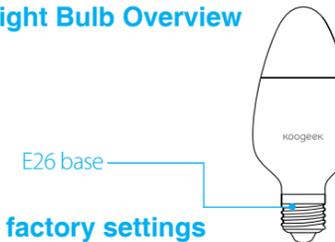

Restore factory settings

After you screw the Smart Light Bulb into your existing light fitting, use your wall light switch to turn on and off the Smart Light Bulb for 5 times and then the light color of the Smart Light Bulb will turn red. When the light color turns cold white again, it indicates that you have restored the device to factory settings.
