Ref: FCC Class II Permissive change for FCC ID: 2AHES-SMB
Original Grant Date: 05/15/2019
Applicant: BSH Home Appliances Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: 2AHES-SMB

There is no change of the modular approved transmitter itself. There are changes made to the host module where the modular approved transmitter is mounted with a dedicated antenna trace design and on-board PCB antennas. No changes on the antennas were made. Bluetooth BR and EDR capabilities remain disabled via firmware.

Compared to earlier variants of the host module there are changes in the digital portion of the host module leading into two variants:

- different multicore controller mounted
- eMMC flash (Memory) with higher internal operating frequency
- different operating frequency for GPU
- ethernet interface (only S2-V11)

If you have any questions regarding this application, please feel free to contact me.

Sincerely,

By:
