

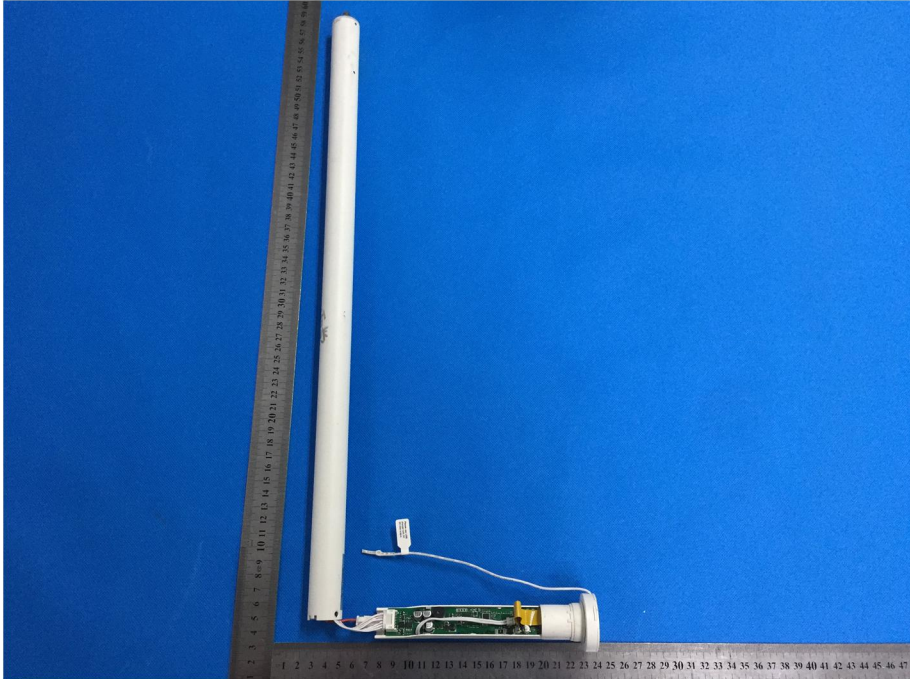

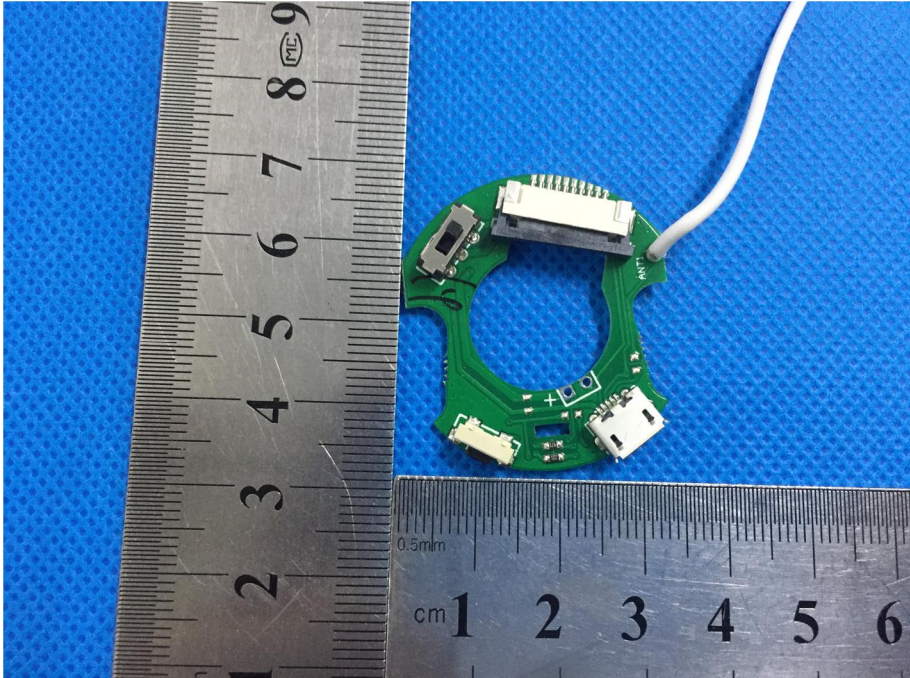

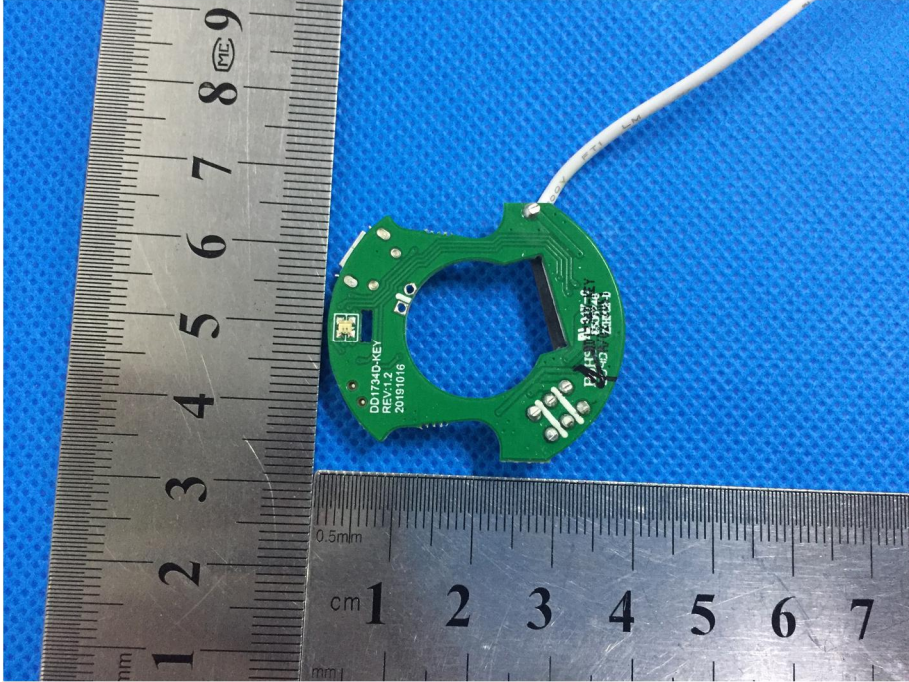

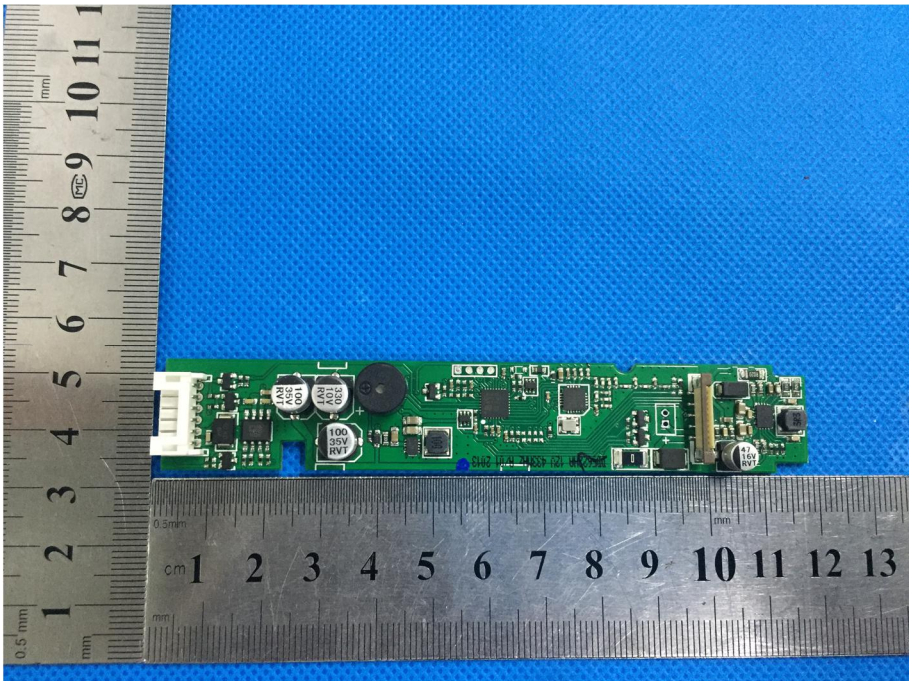

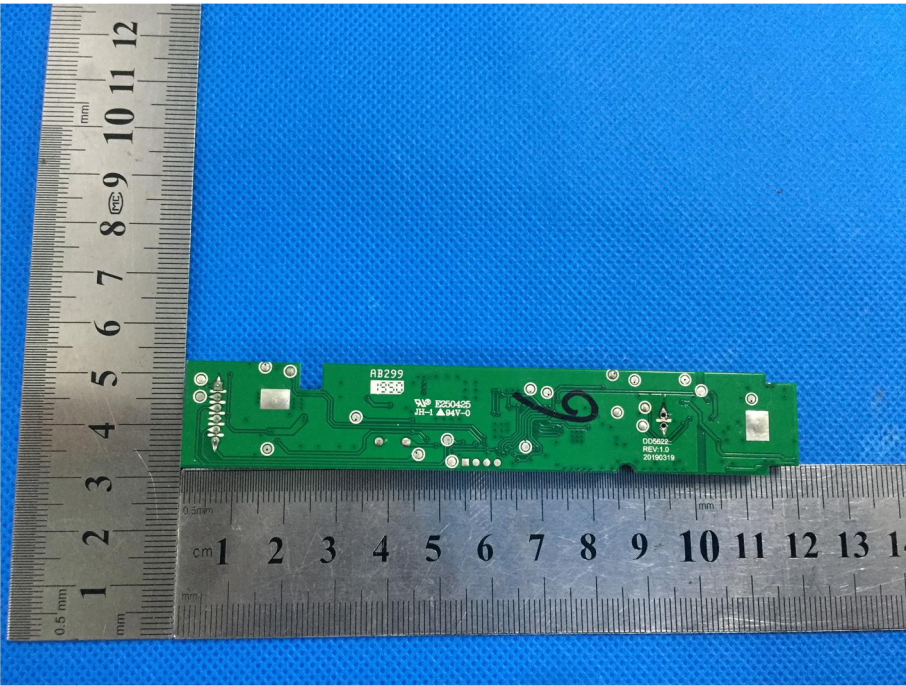

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the EUT housing and board assembly. A white cylindrical component is connected to a green printed circuit board (PCB) via a white cable. The assembly is placed next to a metal ruler for scale. The ruler shows centimeter markings from 1 to 47. The background is a blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the solder board component. The component is a green PCB with various electronic components, including a white connector and a small integrated circuit. It is placed next to a metal ruler for scale. The ruler shows centimeter markings from 1 to 6 and millimeter markings. The background is a blue textured surface.

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a small, green, ring-shaped printed circuit board (PCB) component. The board is positioned on a blue textured surface. A white cable is soldered to the top edge of the ring. The board features several surface components, including a small square component on the left and a larger component on the right. Text printed on the board includes "D51740-REV", "20181016", and "PAPER MOUNTED". A metal ruler is placed vertically to the left of the component, showing markings from 1 to 9 centimeters. A second ruler is placed horizontally below the component, showing markings from 1 to 7 centimeters. The background is a blue textured surface.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a long, narrow green PCB component. The board is positioned on a blue textured surface. It features a white connector on the left end and various electronic components, including capacitors and integrated circuits. Text printed on the board includes "100 35V RVT", "100 35V RVT", and "35V". A metal ruler is placed vertically to the left of the component, showing markings from 1 to 11 centimeters. A second ruler is placed horizontally below the component, showing markings from 1 to 13 centimeters. The background is a blue textured surface.</p>

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of a green printed circuit board (PCB) component with various electronic components and solder joints. The board is placed on a blue textured surface. A metal ruler is positioned vertically on the left side and horizontally below the board for scale. The ruler shows centimeter and millimeter markings. The PCB has several labels, including 'AD229', 'B3538', 'SMP B250425', 'JH-1 ▲B47-0', and 'D06625'. There are also some handwritten markings on the board.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph of a white cylindrical antenna component. A thin white cable is attached to the top of the cylinder. A red line points from a box labeled 'Antenna' to the cable. The antenna has a silver label with some text, including 'ANTENNA' and '200811-02 20'. The component is placed on a blue textured surface.</p>
