

# FCC pocket product description

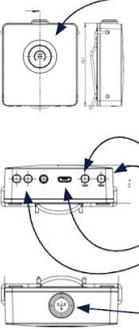

## short description

The mikme pocket is a wireless transmitter that, alongwith the included clip-on lavalier microphone, delivers you studio-grade 24-bit sound. Designed to add value and flexibility to your existing toolkit: the pocket can connect to any lavalier/clip-on microphone, handheld microphone or line-out signal that has a Mini XLR connector. The pocket functions intuitively with the mikme smartphone app to cut post-production times and deliver quality content to your audience, faster.

### What's included?

- 1 mikme pocket
- 1 lavalier microphone (with clips & windscreen)
- 1 ferrite oxide ceramic
- 1 USB charging cable

## quick start guide

<p style="text-align: center;"><b>mikme</b></p> <p style="text-align: center;"><b>On the foundations of great sound</b></p> <p style="text-align: center;"><a href="http://www.mikme.com">www.mikme.com</a></p>	<p><b>your pocket, at a glance...</b></p>  <p><b>famous mikme recording button:</b> start recording end recording</p> <p><b>belt clip:</b> attach your mikme pocket to any sleeve or belt</p> <p><b>power on</b> LED indicates battery status</p> <p><b>Bluetooth pairing button</b> (press it longer to reset)</p> <p><b>USB micro plug in</b></p> <p><b>+ / - volume control</b> of your live monitoring or gain (aka sensitivity level)</p> <p><b>mini-XLR connector</b></p>	<p><b>before you hit that record button...</b></p>  <ol style="list-style-type: none"> <li><b>charge your mikme</b> this takes around 4 hours</li> </ol>  <ol style="list-style-type: none"> <li><b>connect to the mikme app</b> once fully charged, follow the pairing prompts in your app</li> </ol>  <ol style="list-style-type: none"> <li><b>clip in your microphone</b> our mini-XLR connector is your gateway to good sound</li> </ol> <p><b>now, you're ready.</b></p>	 <p>New to this whole audio thing?
