

Subject: Request for Class II Permissive Change for single module FCC ID : 2AHIS-V60G-HOME

Dear Examiner,

This letter is to request a Class II Permissive Change for FCC ID : 2AHIS-V60G-HOME.

The newly model vStraw_CTPB4 differs from the vStraw_CTPB2 model (which was certified under FCC-ID : 2AHIS-V60G-HOME) only by a minor modification in the VYR7201 RFIC (moving to an updated version).

The models are equivalent in terms of their RF characteristics, as tuned by calibration procedure and validated by the testing, therefore the differences are minor enough to count as permissive-change, and described in the technical description attached.

Sincerely,

Naftali Chayat
