Federal Communications Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

**Modular Approval Request**

**FCC ID: 2AHIS-V60GINCARVG**

**The following attestation addresses the requirements to support modular approval:**

<b>Modular approval requirement</b>	<b>Yes (provide brief statement)</b>	<b>No *</b>
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes. The radio elements of V60G-InCar are shielded (see technical description).	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes, the data signals are buffered by CAN transceiver interconnection, and further by the data bus of VYYR7203 component. The modulation of radio signals is performed internally to the VYYR7203 and is not driven directly by the data inputs.	
(c) The module must contain power supply regulation on the module	Yes, V60G-InCar has on-board voltage regulators (see technical description and schematics)	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes, V60G-InCar contains antennas embedded within the PCB itself as an integral part of the board.	
(e) The module must demonstrate compliance in a stand-alone configuration	Yes, V60G-InCar receives its power supply through a connector, from the external source or a battery pack, and operates autonomously per host-trigger.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes, V60G-InCar will have either a silk-screen printed FCC ID or an attached label.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	The product complies with the FCC RF Exposure requirements, as demonstrated within the supplied RF Exposure exhibit	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	The module complies - see the 15.255 and other related data in the test report, and the RF exposure report.	

\* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Naftali Chayat", enclosed within a hand-drawn blue rectangular box.
