🗥 WARNING: Important Safety Instructions for Battery

Pend All Instructions

- No not incinerate the battery even if it is severely domaged or is completely worn out. The battery pack can explode in a fire.
- A small leakage of liquid from the battery cells may occur under extreme usage or temperature conditions. This does not indicate a failure. However, if the outer seal is broken and this leakage gets on vour skin:
- a. Wash quickly with soon and wate
- h Neutralize with a mild acid such as lemon juice or vinegar
- c. If battery liquid gets into your eves. flush them with clean water for a minimum of 10 minutes and seek immediate medical attention. (Medical note: The liquid is 15-40% solution of Nickel hydroxide.) **Recycle Battery**

This product uses Nickel Metal Hydride batteries

Local, state or federal laws may prohibit disposal of batteries in ordinary trash. Consult your local waste authority for information regarding available recycling and/or disposal options.

Makina Life Easier

Staying in touch with your family and friends is convenient and easy when using your radio. Some of the many uses you will discover include: Communicating with others while hiking, biking, and working; keeping track of family and

meeting spots with others while shopping at the mall. Secure your radio while on the an Carrying your radio with you is easy when using the belt clip or

ontional wrist strap.

The belt clip easily attaches to your belt, purse, or backpack.

Carina for Your Radio

Your radio will give you years of trouble-free service if cared for properly. Handle the radio gently. Keep the radio gway from dust. Never put the radio in water or in a dama nlace Avoid exposure to extreme temperatures

Installing Batteries

Remove Belt Clip To install or replace batteries:

4. Replace battery compartment cover screw and belt clip.

. Remove belt clip by releasing belt clip latch and sliding clip up.

2. Using a flat head screw driver or edge of a coin (a quarter may

be used), remove the screw securing the back battery

3. Insert the supplied three AA rechargeable batteries or

non-rechargeable alkaline batteries. Position batteries

- Do not attempt to charge alkaline batteries.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (Ni-Cd. Ni-MH. etc.) batteries.

Radio Charger Jack To charge batteries in radio:

compartment cover.

according to polarity markings.

- 1 Check to see that the batteries have been inserted properly
- 2. Insert the cable into the charae lack located at the top of the ndin
- 3. Plug the cable into USB-compatible power port

Use only the supplied rechargeable batteries and charger for recharging your Craftsman

Craftsman recommends your radio is turned off while being charged.

Non-rechargeable alkaline batteries can also be used in your radio.

Set CTCSS Privacy Codes

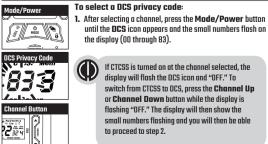

. After selecting a channel, press the Mode/Power button until the **CTCSS** icon annears and the small numbers next to the channel number flash on the display

If DCS is turned on at the channel selected, the display W If UCS is turned on at the channel selected, the displicitly will flash the CTCSS icon and "OFF." To switch from DCS to CTCSS, press the **Channel Up** or **Channel Nown** button while the display is flashing "DEE." The display will then show the small numbers flashing and you will then be able to proceed to step 2.

2. Press using the Channel Up or Channel Down button to select a privacy code. You can hold the **Up** or **Down** button for fast advance.

- 3. When your desired CTCSS privacy code is displayed, choose one of the following: a. Press the Mode/Power button to enter the new setting and proceed to other functions.
- b. Press the Talk or Call button to return to Standby mode.
- c. No not press any buttons for 6 seconds to return to Standby mode

the display (00 through 83). If CTCSS is turned on at the channel selected, the display will flash the DCS icon and "OFF." To switch from CTCSS to DCS, press the **Channel Up**

or **Channel Down** button while the display is flashing "OFF." The display will then show the small numbers flashing and you will then be able to proceed to step 2.

- 2. Press using the Channel Up or Channel Down button to select a DCS privacy code. You can hold the **Up** or **Down** button for fast advance.
- 3. When DCS privacy code is displayed, choose one of the following:
- a. Press the Mode/Power button to enter the new setting and proceed to other
- h. Press the Talk or Call button to return to Standby mode
- c. Do not press any buttons for 6 seconds to return to Standby mode.

Your radio incorporates two advanced coded sauelch systems that can help to reduce interference from other users on any given channel. CTCSS (Continuous Tone Coded Sauelch System) provides 38 privacy codes and DCS (Digitally Coded Sauelch) provides 83 privacy codes. This provides a total of 121 **Privacy Codes**. Either system can be used on all channels, but both systems cannot be used on the same channel at the same time

To successfully communicate using a privacy code, both the sending and receiving radios must be tuned to the same channel and to the same privacy code system (CTCSS or DCS) and privacy code number. Each channel will remember the last privacy code system and number vou select.

heard on a channel that is set to 00 on both the CTCSS and DCS systems.

Safety Information for Radios

Your wireless handheld portable transceiver contains a low power transmitter. When the talk button is pushed, it sends out radio frequency (RF) signals. The device is authorized to operate at a duty factor not to exceed 50%. In August 1996, the Federal Communications Commissions (FCC) adopted RF exposure auidelines with safety levels for handheld wireless devices Important

FCC RE Exposure Requirements: For hody-worn operation, this radio has been tested and meets the FCC RE exposure guidelines when used with Craftsman accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC RF exposure auidelines. Use only the supplied antenna. Unauthorized antennas, modifications or attachments could damage the transmitter and may violate FCC reaulation:

Normal Position

Hold the transmitter approximately 2 inches from your face and speak in a normal voice, with the antenna pointed up and away.

FCC Part 15 21 Warning Statement

the user's authority to operate the equipment.

operating can be well below the maximum value

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE, SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT IC RSS-GEN

This device complies with ISED license-exempt RSS standard(s). Operation is subject to the following two

conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. Under ISED regulations, this radio transmitter may only operate using an antenna of a type and maximum

(or lesser) gain approved for the transmitter by ISED. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

The applicant is responsible for providing proper instructions to the user of the radio device, and any usage restrictions, including limits of exposure durations. The user manual shall provide installation and operation instructions, as well as any special usage conditions, to ensure compliance with SAR and/or RF field strength limits. For instance, compliance distance shall be clearly stated in the user manual. Radiation Exposure Statement:

Contains no metal and that positions the handset a minimum of 10 mm from the body.

Non-compliance with the above restrictions may result in violation of RF exposure auidelines

a. Press the Mode button to enter the new setting and

12

Any Changes or modifications not expressly approved by the party responsible for compliance could void

For Remote controller, SAR tests are conducted using standard operating positions accepted by the FCC/ISED with the device transmitting at its highest certified power level in all tested frequency bands although the SAR is determined at the highest certified power level, the actual SAR level of the device while

Before a new model device is a available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC/ISED, Tests for each device are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC/ISED.

For body worn operation, this model device has been tested and meets the FCC/ISED RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that
