Safety instructions

- Never disassemble the Bluetooth Speaker in an attempt to make any repairs as this could result in electrical shock, burns or product failure;
- Adhere extra caution when using the Bluetooth Speaker around children;
- Use extra caution in high temperatures;
- Product is not waterproof;
- Product is not covered under warranty when the product has metal rust, surface spalling and any other natural oxidation;
- Damage, shock, and/or injury can occur if these warnings are not heeded properly.

Package Content

- 1 Wireless Speaker
- 1 Micro USB Charging Cable
- 1 User Manual

Pairing

1. Switch the on/off button to power up the speaker and enter pairing mode. You will hear a sound prompt that the speaker is ready for pairing;
2. On your wireless enabled smart phone, tablet or media player, navigate to the wireless setting menu, turn on the wireless feature, and search for new devices;
3. Search for “BC-BS-148” on the pairing device;
4. Tap this model to select it and successfully pair it with the speaker. A sound prompt should confirm that the pairing was successful. The speaker will beep. You are now paired, connected and ready to play music.

Charging

- Connect the small end of the Micro USB charging cable (included) to the Micro USB port located on the back of the speaker. Connect the larger end of the cable to your computer’s USB port or an AC adaptor (not included);
- The LED indicator will pulsate while charging, and stop pulsating when speaker is fully charged.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
