- Before using the M-RIG in a wet environment, make sure the silicone cover over the AUX and Micro USB input ports on the back of the speaker is fully closed and secured. If water gets into either port, the speaker may not function properly.

- If the M-RIG gets wet, it is recommended that you dry the speaker completely before using it again.
- While the M-RIG has a silicone shell for protection, it does NOT mean that the M-RIG is drop-proof or indestructible. Speaker may be damaged when dropped from any height.
- All actions done with the M-RIG speaker are done at your own risk. While the speaker is weather-proof and has a protective case, it is not a guarantee for complete damage protection.
