

Bluetooth Earphone

OWNER'S MANUAL

PLEASE READ BEFORE OPERATING THIS EQUIPMENT.

MODEL: MBH525C

LOCATION OF CONTROLS

- | | |
|---------------|---------------------------------------|
| 1. — Button | 5. Rubber Cover |
| 2. ☎ Button | 6. Micro USB Port (For Charging only) |
| 3. Indicators | 7. Built-in Microphone |
| 4. + Button | 8. Channel's Mark (R: Right, L: Left) |

POWER SOURCE

The unit has a built-in Li-Ion rechargeable battery, charge it before first time use or when it is drained as follows:

1. Open the Rubber Cover on the unit.
2. Connect the small plug from the supplied USB Connection Cable to the Micro USB Port.
3. When charging, the Red Charging Indicator on the unit will illuminate. When charging is complete, it will turn off.
4. After charging, disconnect the small USB Connection Cable from the unit then close the rubber Cover.

NOTES:

- Your battery will last longer if you following these simple guidelines for caring and storing.
- A. Before first time use, recharge the unit approximately 4 hours until the unit is fully charged.
 - B. Charge and store the unit within the temperature range of 5°C - 35°C (40°F - 95°F).
 - C. Do not overcharge (longer than 24 hours). Excessive charging or running the unit until battery fully drains will damage battery. Battery life will be extended if you keep the battery fully charged.
 - D. Battery life naturally shortens slowly over time.
 - E. The rechargeable battery incorporated in this product is not user replaceable.

OPERATION

BT (BLUETOOTH) PAIRING:

For first time use or re-pairing the unit to a new BT Device, follow instructions below:

1. Press and hold the ☎ Button on the unit approximately 0.5 second to power on the unit. The Red & Blue Indicators will illuminate and blink.
2. Power on the external BT Device and enter to BT searching mode. Start pairing following the on screen instructions from the external BT Device. When paired, the Blue Indicator will stop blinking and Red Indicator will turn off.
3. If pairing is complete you may now play music or answer the phone with your external BT Device.
4. During playback:
 - Press the ☎ Button to pause; press again to resume normal playback.
 - Press and hold the + or — Buttons to adjust volume level as desired.
 - Press and release the + or — Buttons repeatedly to skip tracks.
5. If the unit is paired to a Cell Phone and a call is incoming during an active music session. Press the ☎ Button then speak to the built-in microphone to answer the call. When your call is complete, press the ☎ Button to disconnect or end the call and resume to music playback.
6. To shut off the unit, press and hold the ☎ Button on the unit until the Red Indicator is illuminate then release the button.

Notes:

- When the external BT Device searches for the unit, our model number "MBH525C" will appear on the display of external BT Device.
- If while pairing you are asked for a code please try "0000" or "1234".

Normal operation after paired:

1. Power on the external BT Device and enter to BT mode.
2. Press and hold the ☎ Button on the unit to power on the unit. The Red & Blue Indicators will illuminate and blink.
3. Wait a few seconds until the unit automatically pairs to the external BT Device. (The Blue Indicator will stop blinking and Red Indicator will turn off.)
4. If pairing is complete you may now play music or answer the phone with your external BT Device.

TROUBLESHOOTING

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
