Sub-board containing a Kingston memory chip (240080T-002-8008-A), a 9AANKW G1 ZC2 chip, and an AM3528ZC100 chip.

Yellow ribbon cable connector labeled 20000600-32.

Sub-board labeled CAGE1 containing various components including resistors (R112, R117, R203, R218) and capacitors (C44, C45, C49, C55, C56, C58).

Two electrolytic capacitors, one labeled 2200UF.

MicroSD card labeled M1K113642 MMT 2086.

CHS

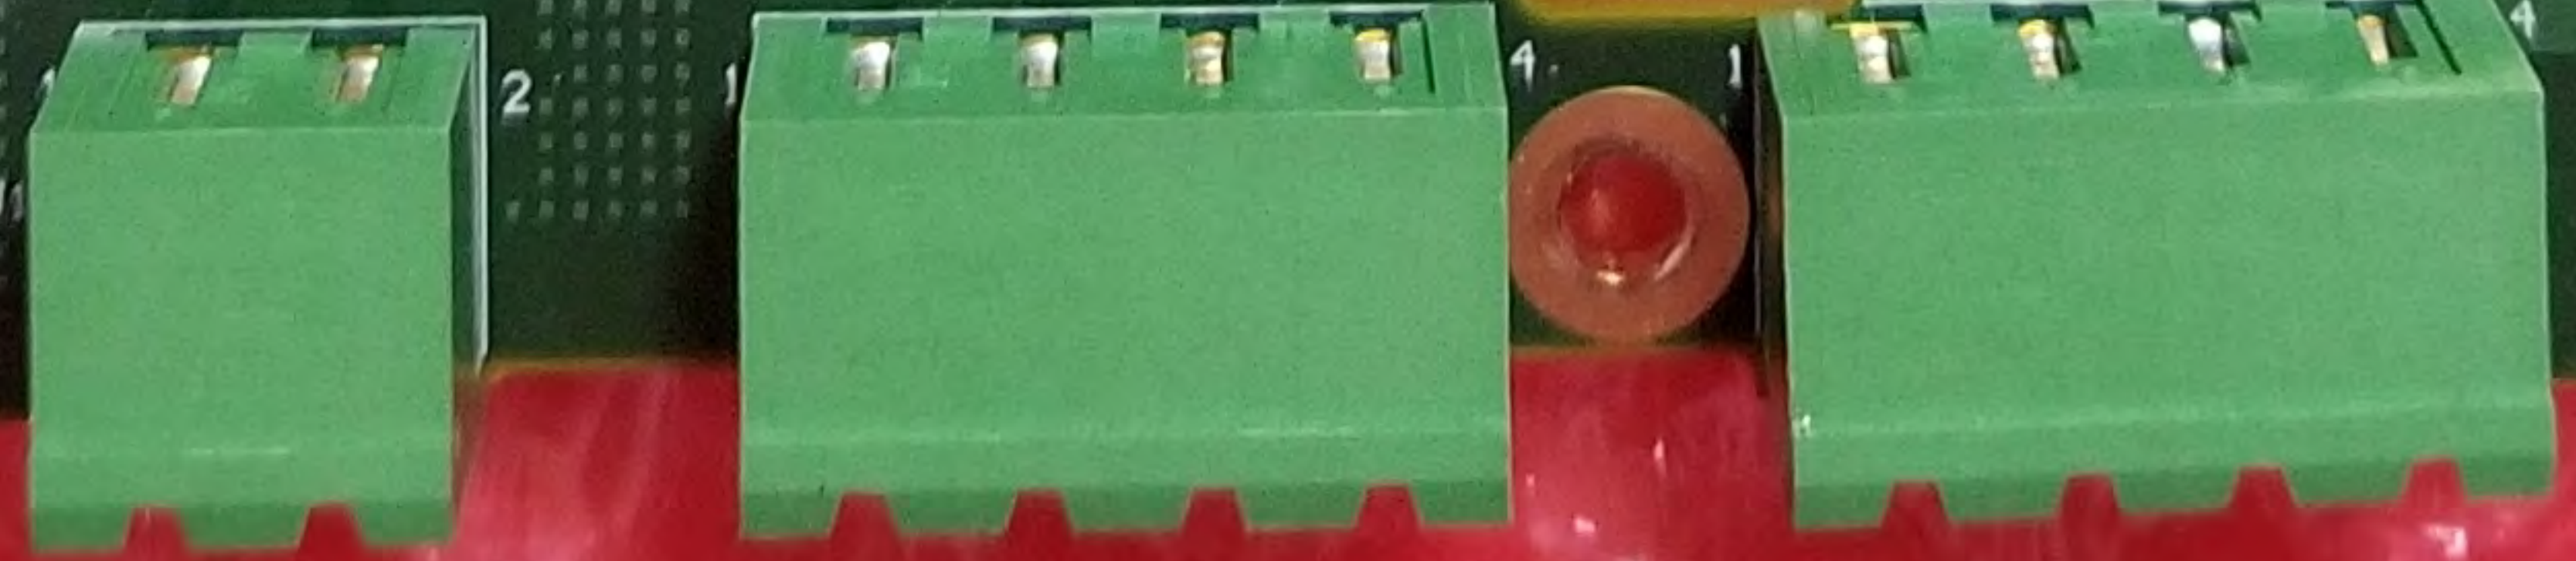

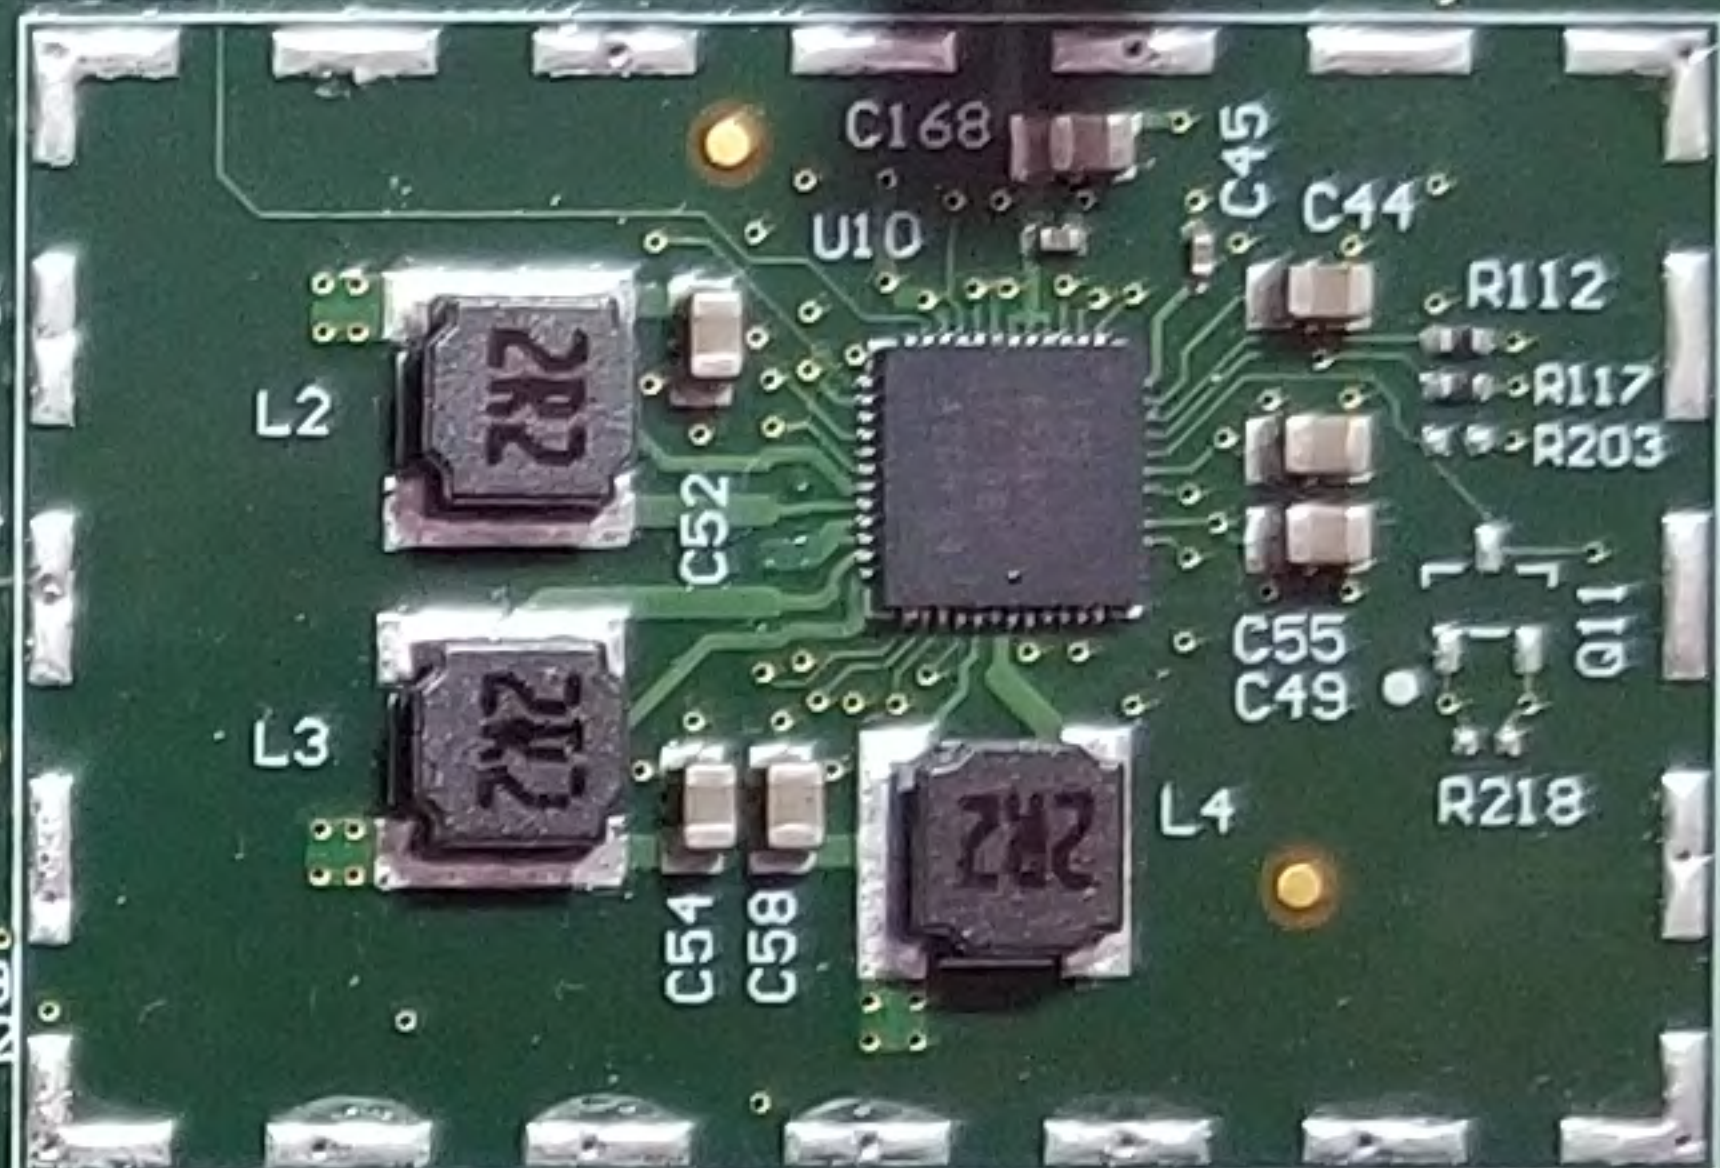

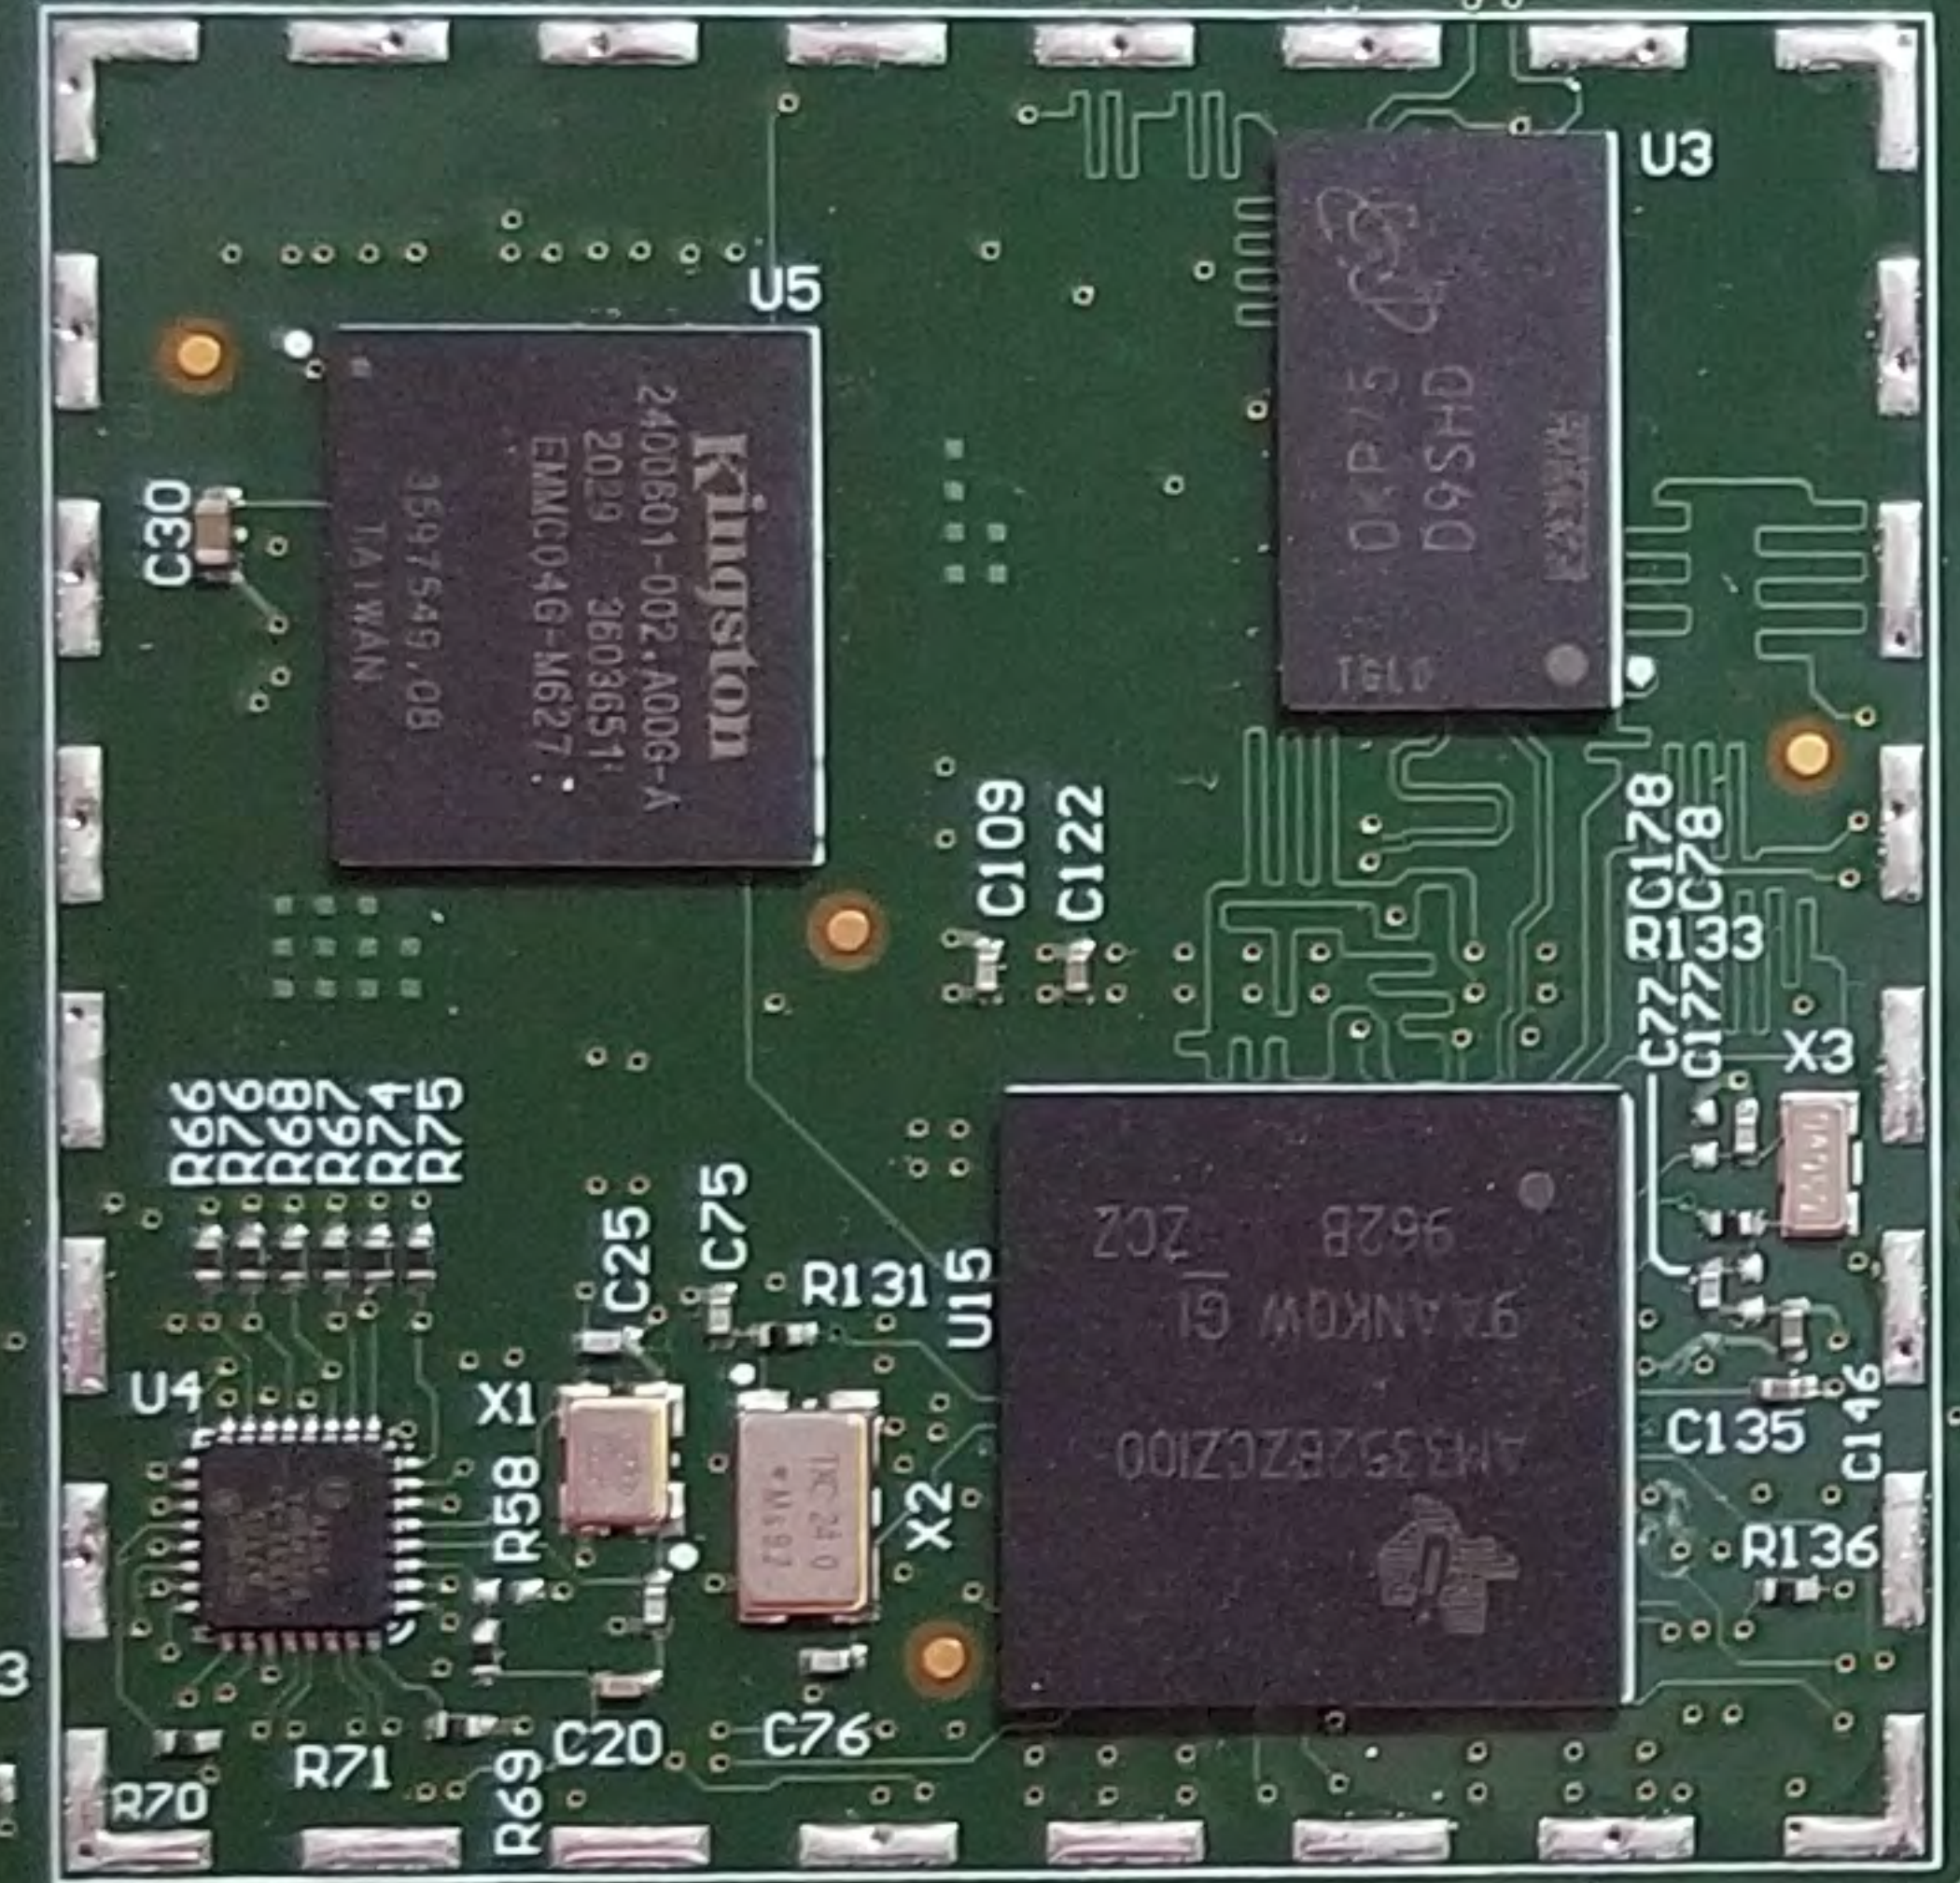

Three green terminal blocks for external connections.

White ribbon cable connector.
