

MAXIMUM

TRUE WIRELESS EARBUDS + POWER BANK

Model: BY-AU-BE-220-AC
Wireless Profile: A2DP1, 3/HFP1.6/HSP1.2/AVRCP
Working Time: Up to 4 hours per charge (60 hrs total)
Battery Capacity: Internal 50mAh, Case 1600mAh
Working Range: 33 feet

Notice: Please read user manual carefully and keep it for your records.

Package Includes

- 2-Bluetooth® Earbuds
- 1-Charging Case with Built-In Power Bank
- 1-Micro USB Charging Cable
- 1-User Manual

Before using this device, fully charge it.

Charging

1. Insert the earbuds into the charging case.
2. Connect a Micro USB charger cable to the Micro USB Port at the back of the charging case.
3. Plug the cable into a standard USB 5V/1A or higher power output.

The red LED will flash while charging and will glow solid red when fully charged,

While the case is charging, the earbuds will glow red, this means they are charging too. Once fully charged they will glow blue until removed from the case.

If the earbuds batteries become depleted, you can insert them into the charge case and press the button on the charge case (if the charge case has a full charge).

The LED will glow blue and will begin charging the earbuds. When charging has been completed the blue LED will turn off.

Charging Devices From The Case

1. Connect a USB charge cable to the USB port on the side of the case.
2. Connect the other side to your device, the case will charge your device as a 1600mAh power bank.

Pairing

1. Once fully charged open the cover of the charge case and press the center button once
2. Remove both earbuds from the case. The indicator lights on both earbuds will flash, wait until one of them stops flashing.
3. Once only one earbud's indicator light is flashing activate Bluetooth® on your device, under available devices, look for "BY-BE-220," and tap the name to pair them.
4. You can now listen to music or make a call.

Once you have successfully paired your Maximum earbuds to your device the first time as described above, you only need to remove them from the charge case and they should connect automatically to your phone if your Bluetooth® is turned on.

If you encounter any issues you can always unpair them from your device and begin this process again.

Controlling Music

When listening to music short press the control button on either earbud once to pause the current music, and again to continue playing the music.

Phone calls

When connected to a device capable of making and receiving phone calls, you can short press the control button on either earbud to answer an incoming call. You can also double press any button to redial the last outgoing number. Phone calls are routed through the right earbud only.

Power Off

Long press the control button to turn the earbuds off. Each one needs to be powered off individually.

Safety instructions

- Do not disassemble, throw away or damage this product. Consult your local waste collection agency for proper disposal or recycling methods. You may also go online at www.call2recycle.org for a battery recycling drop off location near you.
- Do not abuse this product, and do not squeeze it between heavy Objects. Keep them far away from high temperature and humidity away from and other high frequency transmitter equipment. This will affect the local signal reception, resulting in sound breakup and distortion or disconnection.
- Keep the wireless earbuds away from direct sunlight, fire and high voltage equipment. Do not store the wireless earbuds inside a car during hot weather. Remember, a closed car acts as a greenhouse allowing the inside temperature to possibly reach over 200 degrees.
- Be assured to turn product completely off when plugging and unplugging into outlet.
- Damage, shock, and/or injury can occur if this warning is not heeded properly.

FCC ID: 2AHN6-AUBE220

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment. **This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .**

Warranty

Bytech NY INC. warrants this product to be materially free from defects and workmanship to the original purchaser for a period of 12 months from the original purchase date. Bytech responsibility with regard to this limited warranty shall be limited solely to repair or replacement at its option, of any product which fails during normal consumer use. This warranty does not extend to damage or failure which results from misuse, neglect, accident, alteration, abuse, improper installation or maintenance. At any time during the 12 months period following the purchase, the product fails due to defects in material or workmanship, return the defective product (with freight prepaid) with proof of purchase.
