## WIRELESS CHARGER ALARM CLOCK

### INCLUDES:

- 1 (One) Wireless Charger Alarm Clock  
4.5in x 4.4in x 1.25in (11.4cm x 11.2cm x 3.2cm)
- 1 (One) USB Type-C Charging Cable 32in. (81.3 cm)
- 1 (One) Instruction Manual

### SPECIFICATIONS

- Input: 5V/2A
- Output: 5V/1A
- Transmission power: 5W
- Charging efficiency: ≥73%
- Charging distance: ≤6MM

### GETTING STARTED

Plug in the charging cable, the clock LED will display scan from 1 to 9, then display the time. Long press **[⏻]** for 3 seconds, this will reset the clock time to 6:00 am and the alarm time to 12:00 am. Short press **[⏻]** to turn on/off the time display.

### Set Clock Time

1. Short press **[M]** to set the hour, short press **[M]** to switch the minute setting, and long press **[M]** to exit time setup.
2. Short press **[Δ]** : to increase hours/minutes;  
Short press **[▽]** : to decrease hours/minutes .

### Set Alarm

1. Short press **[▽]** to set hours, short press **[M]** to switch minutes setting, long press **[M]** to exit alarm setup.

2. Long press **[▽]** , to turn on/off alarm display (Only one alarm time can be set)
3. When the alarm is sounding, tap the device or press any button to stop the alarm (the alarm will ring for 30 seconds, with an interval of 10 seconds, and then ring again for 30 seconds), and the cycle will continue. If there is no interaction after 10 minutes, the alarm will stop automatically, and the alarm will resume the next day.

\* In the settings mode, if there is no key operation, the clock will return to the display time state after 5 seconds.

### Charging Indicator Instructions

Connect charging cable for charging. The indicator on the top right of the time screen turns blue to indicate that the wireless charger is working, if blue indicator is flashing, it indicates that the wireless charging is not working.

\* **Compatible with most smartphones with Qi Wireless**

### Charging capability, such as:

### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 8 inches between the radiator & your body.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.
