To whom it may concern:

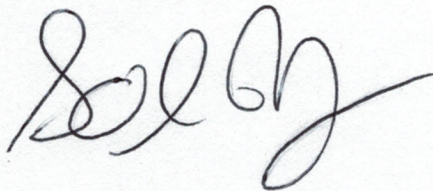

The RF chip, model: ST17H26, which installed in our product BLTH Shutter Selfie Ring-ASST (Model No: BY-SF-SH-105-AC, FCC ID: 2AHN6-SFSH105), supports BLE+2.4G dual mode. But for marketing purpose, the product only supports BLE function, not supports other 2.4G functions. The other 2.4G function has been shielded by the manufacturer using the software.

Sincerely Yours,
