IMPORTANT:

- Do not operate this digital video player while the vehicle is moving.
- This is a safety feature to prevent driver distraction.
- It's illegal in most country for the driver to view video while the vehicle is moving.
- The digital video functions will only be operated when vehicle is parked and the parking brake is engaged.

To establish a safe level:**Start your volume control at a low setting.**

- Slowly increase the sound until you can hear it comfortably and clearly, and without distortion.
- Once you have established a comfortable sound level, set the dial and leave it there.

How to Handle Discs:

- Handle disc by its edges. Do not touch the playing side.
- Before inserting a disc, wipe the disc outward from the disc center with a clean, soft, dry and lint-free cloth. Do not use solvents or thinners such a petrol/benzene or cleaners.
- After removing disc from the disc slot, place the disc in a sleeve or case to keep it clean and prevent scratches.
- Do not stick paper or tape on the disc surface. If there is glue (or adhesive) on the disc surface, remove it before using the disc.

**Precautions:**

1. To reduce the risk of fire, electric shock, and interference, do not attempt to repair this product yourself. Refer all servicing to a qualified technician.
2. This digital video player is compatible with VIDEO/AUDIO discs with 12 cm size:
 - DVD disc
 - VCD disc
 - CD, CD-R, CD-RW disc
 - MP3 disc
3. Do not switch **ON** this digital video player for a long time when the vehicle's motor is switched off. This could cause the vehicle's battery to discharge and battery may not be able to provide enough power to fire up the engine
4. Do not apply strong mechanical stress like drop, shock or any force to the TFT LCD. Do not hard hit, press or rub the TFT LCD display surface. If the display surface is dirty, please wipe the surface softly with cotton swab or clean cloth.
5. Never place any foreign objects into the openings of this product such as disc slot, USB port, AUX IN jack. Otherwise you might damage the slots and connectors.
6. Do not throw the battery cell of remote control into fire as this may cause an explosion. Keep battery cells out of reach of children.

Copyright Notes:

This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners.

Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation.

Reverse engineering or disassembly is prohibited.

Region Management information:

This product is designed and manufactured to respond to the Region Management Information that is recorded on a digital video disc. If the Region number described on the DVD disc does not correspond to the Region number of this DVD player, the disc cannot be played on by this DVD player.

INSTALLATION:

Before Installation:

- We recommend you to let a professional technician install the unit in the vehicle.
- Disconnect negative battery terminal of vehicle.

Installation Process:

- Carefully remove the existing head unit.
- Before finally installing this product, connect wiring harness temporarily and make sure it's all connected up properly and test the head unit if it can work properly. (Consult a qualified technician if you unsure)
- Lift the left or right top corner of the plastic outer trim ring then pull it off to remove it.
- Insert the two bracket keys into the left and right side of the chassis to separate the chassis from the housing.
- Insert the mounting sleeve into the dashboard and bend the mounting tabs out with a screwdriver. Make sure that the lock lever is flush with the mounting sleeve and it does not project beyond it.
- Slide the digital video player carefully into the already fixated mounting sleeve till it clicks into place.
- Use a metal strap to fix the rear part of the chassis.
- Connect wires as illustrated in the "**wiring diagram**".
- Install the plastic outer trim ring.

Note: If you need other screws to fix other terminal, please buy from your dealer according to the drilling of holes size.

INSTALLATION:

Wiring Connections:

RADIO ANTENNA JACK

AUDIO/VIDEO I/O CONNECTIONS

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
